SUBJECT: **Implementation of a Data**

Administration Program

(Amendment to D.O. No. 169 Series of 2003)

A Department-wide Data Administration Program will be implemented to enable the DPWH to achieve its mission by optimizing the value of its data assets, and will ensure sound data management practices through partnerships with a variety of data stakeholders throughout, and external to, the Department.

1.0 Objectives of the Program

The program will provide a data environment that will promote better communication and decision-making for both internal and external stakeholders; improve the quality, accuracy, and integrity of data; promote the sharing of data across organizational boundaries; minimize the cost of gathering, processing, maintaining, and accessing data; establish authority, responsibility, and accountability for data management activities throughout the Department; emphasize the integration of data with business activities; and ensure a Department-wide perspective of data.

2.0 Data Administration Policy

Data shall be categorized according to their significance to the Department; managed and protected as a Department resource; named and defined consistently across the Department; readily accessible to all, except where restrictions can be justified; not maintained redundantly without justification; assigned to an organizational unit "data steward"; and created and maintained as close to the source as feasible.

3.0 Data Administration Steering Committee

The Data Administration Steering Committee is hereby reconstituted to support the management of information as a strategic DPWH asset. This Committee shall serve as a user-oriented decision making group in support of the Program and shall be composed of the following:
