

REPUBLIC OF THE PHILIPPINES  
MINISTRY OF PUBLIC WORKS AND HIGHWAYS  
OFFICE OF THE MINISTER  
MANILA

8 August 1984

Ministry Order  
No. 34  
Series of 1984

SUBJECT: Authenticity of Quality  
Control Reports

TO: All Officials  
Others Concerned  
This Ministry

There have been reports that spurious quality control test reports were used to facilitate acceptance of construction materials and support claims for payments. This practice will cause the use of low quality materials in the project which eventually will result in substandard structures.

To forestall the use of fake test reports you are enjoined to be vigilant and exert utmost effort to stop this malpractice. Only the original report should be accepted. Duplicate or xerox copies should be verified. If there is any doubt as to the authenticity of test reports presented by suppliers or contractors, verification by telegram to that effect should be made to the Director, BMQC, MPWH, Manila.

For immediate and strict compliance.

JESUS S. HIPOLITO  
Minister
