Republic of the Phi ines

MINISTRY OF PUL C WORKS

Bonifacio Drive, Port Area, Manila

OFFICE of the MINISTER

May 28, 1980

SUBJECT: Creation of a Coordinating Committee for the Dagat-

Dagatan Project

In order to efficienctly and effectively implement the Dagat-Dagatan Reclamation Project and to forestall any unnecessary delays, an Ad Hoc Coordinating Committee for Dagat-Dagatan is hereby constituted with the following membership:

- 1. Porfirio S. dela Fuente - Chairman Regional Director, NCR
- 2. Antonio A. Alpasan -- Member Assistant Director, BFCD
- 3. Antonio P. Seludo -- Member Assistant Director, BPHR
- 4. Reynaldo Molina -- Member Supervising C.E. III, BFCD
- 5. Gregorio Carillo -- Member Chief Civil Engineer, BPHR

The Coordinating Committee shall report directly to the Minister and/or the Deputy Minister and shall see to it that an integrated plan which shall include the reclamation particulars and the drainage design for the watershed areas be prepared under the joint efforts of the Bureau of Ports, Harbors and Reclamation and the Bureau of Flood Control and Drainage with the assistance of the National Capital Region office.

Specifically, the Coordinating Committee shall see to it that:

- 1. the preparation of the design of the Dagat-Dagatan reclamation project shall include:
 - a. retaining dikes,
 - conveyances and outlets for excess water through appropriate drainage channels,
 - c. pinpointing sources of appropriate materials for reclamation and utilizing as much of nearby dredged materials as possible, and
 - d. procedure in the management of spoils during reclamation.

K

5/19/80

The Bureau of Ports, Harbors and Reclamation shall be primarily responsible for the preparation of the reclamation design taking into consideration the recommendations of the Coordinating Committee.

2. the preparation of the drainage design for the concerned entire area shall include the Dagat-Dagatan reclamation area and other areas within the drainage watershed. The Coordinating Committee shall come up with the recommendations on the priorities in implementation.

The Bureau of Flood Control and Drainage shall be primarily responsible in the preparation of the drainage design taking into consideration the recommendations of the Coordinating Committee.

3. the finalization of the drainage design for the project is made in full coordination with the National Housing Authority and their consultants.

Strict compliance is hereby enjoined.

ALFREDO L. JUINIO
