FOREWORD

The construction of quality and durable infrastructure has always been the primary goal of the Department of Public Works and Highways in all its undertakings.

To ensure this, we are providing the compilation of approved additional DPWH Standards Specifications that were developed but not included in the previously released 2004 Edition DPWH Standard Specifications Volume II.

These supplemental guidelines will ensure that all field personnel have the necessary ready reference to comply with and implement only the highest standards in the implementation of all DPWH infrastructure projects.

The imperative of quality must be our constant lookout and our commitment.
