SUBJECT : Guidelines for the Imposition of Administrative Sanctions on
Erring Engineers Involved in the Defective Implementation
of DPWH Projects

We are submitting herewith the "Guidelines for the Imposition of Administrative Sanctions on Erring Engineers Involved in the Defective Implementation of DPWH Projects" prepared by this Bureau.

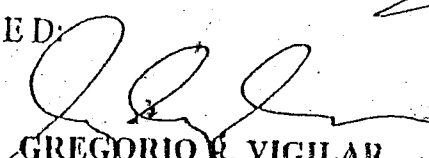

The guidelines will be used in the evaluation of written explanations submitted by the concerned engineers relative to the defects/deficiencies noted by the Quality Assurance Unit (QAUs) in the implementation of projects that they supervise and in recommending what sanctions are appropriate to be imposed against the erring engineers.

Attached to these guidelines are the classification of common defects/deficiencies for roads and bridges (Annex "A") and sample calculations (Annex "B") to determine points corresponding to the nature and extent of defects/deficiencies of projects, which become the basis for imposing the appropriate sanctions.

For the Secretary's consideration and approval.

Director IV

APPROVED:

GREGORIO R. VIGILAR
Secretary

GUIDELINES FOR THE IMPOSITION OF ADMINISTRATIVE SANCTIONS ON ERRING ENGINEERS INVOLVED IN THE DEFECTIVE IMPLEMENTATION OF DPWH PROJECTS

In order to have consistent guidelines for the imposition of administrative sanctions against erring engineers involved in the defective quality of work in DPWH projects, as noted in the reports of the Quality Assurance Units (QAUs), the following are hereby prescribed for the guidance of all concerned:

1. Sanctions shall be applied to all Project Engineers, Resident Engineers and Materials Engineers involved in defective work as noted in the QAU report and shall be imposed if the written explanations submitted relative to the defects/deficiencies noted in the projects are deemed not acceptable.
2. Sanctions shall be based on the nature and extent and/or frequency of the defects/deficiencies noted on both on-going and completed projects.
3. The nature of the defects/deficiencies shall be categorized as follows:
 - a. **Less serious defects/deficiencies** - those associated with aesthetics, do not affect the stability of the structure, or are related to project documentation, i.e., program of work (POW), approved plans and specifications, test reports, quality control program (QCP), certificates of quality control assurance (CQCA), change/variation order, and the like.
 - b. **Serious defects/deficiencies** - those that need immediate corrective measures but do not need the replacement of the defective part of the structure.
 - c. **Very serious defects/deficiencies** - those that can not be economically corrected and need the removal and replacement of the defective part of the structure.

4. The extent of the defects/deficiencies shall be classified as follows:
 - a. **Localized** - Those affecting less than 1.5% of the completed work
 - b. **Limited** - Those affecting 1.5% to 2% of the completed work.
 - c. **Significant** - Those affecting more than 2% but not greater than 2.5% of the completed work.
 - d. **Extreme** - Those affecting more than 2.5% of the completed work.
5. The nature and/or extent of the defects/deficiencies shall be quantified and/or computed on a per project basis per assessment.
6. The calibrated sanctions to be imposed against erring engineers are as follows:

6.1 For Road Projects Only (Highways and Bridges)

a. Warning

A warning shall be issued to the concerned engineer, if the QAU report on any project under his supervision receives a rating of 10 or greater based on the values shown in Table I.

TABLE I

NATURE OF DEFECT	EXTENT OF DEFECT			
	LOCALIZED	LIMITED	SIGNIFICANT	EXTREME
Less Serious	2	5	8	10
Serious	5	8	10	12
Very Serious	8	10	12	15

b. Advice Not to Handle/Supervise Projects for a Period of Six (6) Months

This advice will be issued to the concerned engineer if he has been issued a Warning (Section 6.1.a) and again receives a QAU rating of 10 or greater in a subsequent project.

c. Advice Not to Handle/Supervise Any Project for a Period of One (1) Year

This advice will be issued if the concerned engineer has been advised not to handle/supervise any projects for six (6) months and again receives a QAU rating of 10 or greater in a subsequent project.

d. Perpetual Disqualification from Handling/Supervising Any Project

An engineer who has been issued an advice not to handle/supervise any project for a year, and who again receives a QAU rating of 10 or greater in a subsequent project shall be perpetually disqualified from handling any project.

6.2 For DPWH Projects Other Than Roads

a. Warning

A warning shall be issued to the concerned engineer if the nature of the defects/deficiencies observed regardless of extent, in any of the projects that he supervised have the following frequency.

- ii. four (4) or more serious defects/deficiencies
- iii. eight (8) or more less serious defects/deficiencies

b. Advice Not to Handle/Supervise Projects for a Period of Six (6) Months

This advice will be issued to the concerned engineer if the frequency of the defects which was used as basis for the issuance of an earlier warning, recurs in any of the projects that he supervised in the ensuing assessment.

c. Advice Not to Handle/Supervise Any Project for a Period of One (1) Year

This advice will be issued if the concerned engineer has already been advised not to handle/supervise any project for six (6) months and the frequency of defects/deficiencies occurs again in any of the projects that he supervised in the next assessment.

d. Perpetual Disqualification from Handling/Supervising Any Project

An engineer who has been advised not to handle/supervise any projects for a year shall be perpetually disqualified from handling any project if the frequency of defects/deficiencies occurs again in any of the projects that they supervised in the subsequent assessment.

7. Concerned engineers who fail to submit the required written explanations shall be reminded to submit the same within two (2) weeks upon receipt of notice, otherwise an outright warning shall be issued if they fail to comply with the instruction.
