DEPARTMENT ORDER)

77)

NO.)
Series of 2018)

**SUBJECT: REVISED GUIDELINES IN THE
PREPARATION OF DETAILED
ENGINEERING DESIGN,
"AS-STAKED", REVISED, AND
"AS-BUILT" PLANS FOR HIGHWAY,
BRIDGE AND WATER PROJECTS**

In order to standardize the preparation of Detailed Engineering Design (DED), "As-Staked", Revised and "As-Built" plans for highway, bridge and water projects implemented by the Department, the following guidelines are hereby prescribed:

1. All sheets in a set of DED, "As-Staked", Revised and "As-Built" Plans for Bridge, Highway, Water Engineering and other related projects shall be uniform and of one standard A3 size (297mm x 420mm) high quality white paper (minimum of 80gsm/substance 24).
2. Draftsmanship shall be of professional quality. All plans shall be printed and drafted using computer-aided design (CAD) software.
3. The meaning and intent of the provisions and/or specifications under the General Notes shall be made clear and specific and shall leave no room for misinterpretations that may lead to Variation Orders later on.
4. The scale to be used for various parts of the design plans (i.e. plan, profile, cross-sections, structural details, etc.) shall vary depending on the scale prescribed in the latest DGCS edition and/or the designer's desired scale provided that each part shall be presented clearly and readable when printed in A3 size paper.
5. The title block for all sheets shall be made an integral part of the sheet of plan and not merely patched-up therein. Cover sheets and title blocks shall vary depending on the preparing and approving office. Formats for cover sheets and title blocks are as presented in the following annexes:

• Cover Sheets:

Annexes "A-1" to "A-11"	-	Detailed Engineering Design Plans
Annexes "B-1" to "B-6"	-	"As-Staked" Plans
Annexes "C-1" to "C-11"	-	Revised Plans
Annexes "D-1" to "D-6"	-	"As-Built" Plans

• Title/Signature Blocks:

Annexes "E-1" to "E-3"	-	Detailed Engineering Design Plans
Annexes "F-1" to "F-2"	-	"As-Staked" Plans
Annexes "G-1" to "G-3"	-	Revised Plans
Annexes "H-1" to "H-2"	-	"As-Built" Plans

NOTE: All dimensions shown are in millimeters.

6. For DED plans prepared by design consultants and "As-Staked", Revised or "As-Built" Plans checked/reviewed by construction supervision consultants, all sheets including the cover page shall be provided with a liability waiver duly signed by their Project Manager. The waiver shall also be made an integral part of all sheets and not merely patched-up. Format of the liability waivers shall be as presented in annexes "I-1" to "I-4".
7. All sheets of the set of plan shall be neat, clean and without any crossed-out or voided portion therein. Plans with corrections made by reviewing officials/offices shall be returned to the designing office to be corrected and replaced.
8. The text style shall be Arial for all parts of the plan. Text height may vary depending also on the designer's desired size as long as all words are maintained legible. However, standard text heights for cover sheets and title blocks shall be as illustrated in annexes "J-1 to J-5".

This Order shall supersede D.O. No. 56, series of 1995 and other previous issuances inconsistent herewith, and shall take effect immediately.
