DEPARTMENT ORDER)

SUBJECT: Manual on the Maintenance of Flood Control and Drainage Structures

NO. 132)

Series of 2025)

DA 7/10/2025

In line with the Department's initiative to optimize its processes and uphold its commitment to the continuous delivery of essential infrastructure projects, all Implementing Offices (IOs), including the Unified Project Management Office- Flood Control Management Cluster (UPMO-FCMC), are hereby directed to utilize the *Manual on the Maintenance of Flood Control and Drainage Structures (FCDS) 2025 Edition*. This manual aims to support the timely and effective maintenance management of FCDS and to prolong its serviceable life through the appropriate execution of maintenance activities.

This manual will serve as a comprehensive guide for IOs in the implementation of maintenance-related activities such as inventory, field inspection, execution of repair works and emergency measures, and the proper prioritization of FCDS in need of maintenance. It also outlines the processes for the computation of the FCDS maintenance fund, as well as the establishment of evaluation and monitoring of all FCDS-funded projects.

Furthermore, in pursuit of the Department's goal to digitalize the inventory of all flood control structures, the implementation of the Flood Control Inventory Application (FCIA) across all IOs is hereby directed. The IOs shall comply with the procedures and data requirements outlined in the latest issuance of the FCIA Users Manual, which is available for download on the DPWH Intranet.

This Order shall supersede any previous memoranda and/or instructions that are inconsistent with the provisions of the foregoing and shall take effect immediately.
