DEPARTMENT ORDER)
NO. 136)
Series of 2023)

**SUBJECT: Prescribing the Use of
Infrastructure Right-Of-Way
Management Application
(IROWMA) by All Concerned**

11/6/23

In order to achieve a more effective and expeditious management of Right-of-Way (ROW) acquisition, the Legal Service together with the Information Management Service developed the Infrastructure Right-of-Way Management Application (IROWMA). The IROWMA aims to automate the process of ROW acquisition, keep track of all ROW related information during acquisition from assessment of claims until the transfer of the title to the Republic of the Philippines, monitor the status of ROW acquisition, and identify roadblocks of ROW components, if any, to address the same, in accordance with the provisions of Republic Act No. 10752 and its IRR, Department Order No. 65, series of 2017 and this Department's policies, guidelines and specifications on ROW acquisition.

With the full development of IROWMA and with the corresponding training of representatives of ROW personnel of all Regional and District Engineering Offices, all Regional and District Engineering Offices are mandated to utilize the IROWMA in accordance with the guidelines and instructions conveyed during the IROWMA roll-out.

In the utilization of the IROWMA, implementing units are further directed to encode any and all available data for all completed and on-going projects from fiscal year 1990 or earlier up to present.

An electronic copy of the IROWMA User and Procedure Manuals may be downloaded from the DPWH Website.

This Order shall take effect immediately.
