**SUBJECT: Standard Plan for Water Engineering Projects: COASTAL REVETMENT (RUBBLE-MOUND)**

In line with DPWH Design Guidelines, Criteria and Standards (DGCS), 2015 Edition, issued through Department Order No. 179, series of 2015, a standard plan for coastal revetment is now available for reference.

The issuance of the said standard plan aims to ensure the safety, cost effectiveness and development of high-quality detailed design for water engineering projects incorporating the industry's best practice in design adaptable to local requirements. It shall also guide District Engineering Offices, Regional Offices, Project Management Office Clusters and Engineering Consultants in the preparation of design plans based on this standard.

The aforementioned plan for Coastal Revetment, consisting of five (5) sheets, can be downloaded from the DPWH Intranet (<http://dpwhweb>) under Bureau of Design – Standard Design Plans.
