MEMORANDUM

FOR : **MARK A. VILLAR**
Secretary
This Department

This refers to the memorandum dated 19 June 2017 of **DPWH NCR Director MELVIN B. NAVARRO**, endorsing the request of District Engineer **ROBERTO S. NICOLAS**, Metro Manila 1st District Engineering Office, for the **modification** of the hereunder stated project:

Location	Project Description		Physical Target / Cost	
	<i>as per GAA</i>	<i>as modified</i>	<i>per GAA/Original</i>	<i>as modified</i>
	UACS: 292003020401793			
Marikina City	MFO-2 Flood Management Services: Construction/ Maintenance of Flood Mitigation Structures and Drainage Systems, Rehabilitation of Drainage System, Barangay Marikina Heights, Marikina City <i>(Construction of Drainage Structure)</i>	MFO-2 Flood Management Services: Construction/ Maintenance of Flood Mitigation Structures and Drainage Systems, Rehabilitation of Drainage System, Brgy. Concepcion Dos , Marikina City <i>(Rehabilitation/Major Repair of Flood Control Structure)</i>	2,200 Lm	2,428 Lm
			Unit Cost: P9.090T/Lm	Unit Cost: P8.237T/Lm
			Allocation: PhP 20M	Estimated Cost: PhP 20M
Justification: <ul style="list-style-type: none">The approval of this request for project title modification from "<i>Rehabilitation of Drainage System, Barangay Marikina Heights, Marikina City</i>" to "<i>Rehabilitation of Drainage System, Brgy. Concepcion Dos, Marikina City</i>" is being sought as per recommendation of the LGU of Marikina City in order to complete the connection between the on-going constructions of RCBC along Katipunan St. funded under CY 2016 GAA, and the proposed Lilac Bridge (Balanti Creek) RCBC outfall funded under CY 2017 GAA.The water carriage capacity of Balanti Creek had reached the maximum due to the volume of flood water coming from Upper Marikina and Antipolo City, thus, the construction of a major drainage outfall parallel to Balanti Creek was recommended.The purpose of this is to divert at least 50% of flood water to Katipunan Street RCBC outfall and to lessen the volume of flood water that will pumped out by Russet Pumping Station to the creek. This project if approved for implementation thru this modification will be the ultimate solution to the flooding woes of the constituents of Baranqay Concepcion Dos.				

Based on our evaluation, the submitted request for modification of the said project is in order; hence, approval hereof is recommended.

ROMEO S. MOMO, CESO I

Undersecretary for Luzon Operations

APPROVED/DISAPPROVED:

MARK A. VILLAR

Secretary

NOTE: Copies of the approved project modification requests are forwarded to the Office of Undersecretary Maria Catalina E. Cabral, PhD, CESO I.
