**Justification:**

- Change in type of work from Widening of Bridge Into Construction of Parallel Bridge to reflect actual work needed to widen existing bridge. The existing Mat-i Br. (B01857MN) is a steel truss bridge, hence, widening can be done through construction of parallel bridge only.
- Type of work reflected is based on the unnumbered memo dated Oct. 21, 2024: Allowed Types of Work (TOW) for Civil Works Components.

- The physical target and the unit cost remain the same.

Based on our evaluation, the submitted request for modification of the said project is in order; hence, approval hereof is recommended.
