- The decrease in the physical target was necessary to incorporate CW2 – *Construction of a Concrete Bridge* and CW3 – *Construction of a Gravel Road*. These additions ensure continuous connectivity and accessibility for transporting heavy equipment and materials during the implementation and execution of projects. Additionally, the objective of the design is to fully open the entire stretch of the NRJ Barangay Camul - NRJ Barangay Lumbayao road to optimize transportation efficiency and accessibility for the local community, improve emergency response capabilities and foster community connectivity.
- The derived unit cost is based on the approved Program of Works (POW) and Detailed Unit Price Analysis (DUPA).

Based on our evaluation, the submitted request for modification of the said project is in order; hence, approval hereof is recommended.
