

2018 PGS SCORECARD UPDATING WORKSHOP

*Everyone wants to live on top of the mountain,
but all the happiness and growth occurs while you're climbing it.*
- Andy Rooney

As the Department continues to tread the PGS pathway with KONKRETO 2022 as its goal, it is inevitable for its managers to look into its tracks of development and check if its gears are still well-oiled for the long run. With the scorecard as its checklist, the Corporate Planning & Management Division (CPMD) recently conducted a workshop on the 2018 2nd Level Performance Governance System (PGS) Scorecard Updating last February 12, 2019. The workshop provided the Regional PGS coordinators the guidelines in accomplishing the PGS 2018 Summary Forms that will determine the accomplishments of DPWH offices to be reflected in the scorecard.

The workshop was spearheaded by the PGS Committee Chairperson, Undersecretary Ma. Catalina E. Cabral and opened the one-day activity with the message of collaboration and unity. That through identifying and owning of targets, the Department's over-all PGS performance can only be realized through the collective accomplishment of its unit offices, particularly the Implementing Offices. That each kilometer of accomplished road which contributes to the goals of the DPWH strategy, constitutes the success of the PGS as a strategy management tool and ultimately, prepares the Department to its destination of KONKRETO 2022.

Further, the CPMD staff served as resource speakers and facilitators in the said workshop attended by the sixteen (16) RO-PGS Coordinators. This is the 2nd workshop conducted by CPMD regarding the PGS Scorecard since November 2018. Meanwhile, Engr. Jake Bonn Dumpasan, Officer-in-Charge of CPMD, also shared some vital information regarding the matter and some high-impact project accomplishments of the Central Office before his concluding message.

A great strategy meeting is a meeting of minds
- Max McKeown

The Department of Public Works and Highways (DPWH) led by Secretary Mark A. Villar and stakeholders' representative recently held the 4th Quarter DPWH Multi-Sector Governance Council (MSGC) meeting at the DPWH Central Office for an assessment review of the Department's strategic infrastructure programs, policies and key accomplishments for FY 2018.

DPWH Performance Governance System (PGS) Committee Chairperson, Undersecretary Maria Catalina Cabral, together with the Corporate Planning and Management Division facilitated the meeting attended by key officials from multi-sector organizations that serve multi-faceted roles as the agency's stakeholders, partners, and independent advisory body.

Among those present at the meeting were Engr. Angel Lazaro of Philippine Institute of Civil Engineers (PICE) and Confederation of Filipino Consulting Organizations (COFILCO) Inc., Mr. Ibarra Paulino of Philippine Constructors Association, Inc. (PCA), Mr. Bernardo Villegas of the University of Asia and the Pacific (UA&P), Ms. Gen Licos of National Economic and Development Authority (NEDA), Mr. Nico Borromeo of Philippine Institute for Development Studies (PIDS), Ms. Aileen Mappala of University of the Philippines - National Center for Transportation Studies (NCTS) and Ms. Jeanne Arame Cruz of Philippine Chamber of Commerce and Industry (PCCI).

With the conferment of the PGS Proficiency Stage in 2017, DPWH committed to achieve the PGS Institutionalization Stage by furthering its governance reforms through the proactive involvement of the MSGC for their recommendations and initiatives that would contribute in the realization of its organizational goals.

DPWH-MSGC 4TH QUARTER 2018 MEETING
