

THE JOURNEY TOWARDS ORGANIZATIONAL AWARENESS

Returning back to Luzon, konkreto2022 felt the chill breeze of Baguio City last March 2 and 3. The warm response of the 88 participants was enough to keep the workshop alive. After a few sips of kalinga coffee, the banner was then passed to the shores of La Union. The enthusiasm and vigor was almost too much for the facilitators but at the end of the day, knowing that 116 participants were christened to the konkreto2022 message meant that more employees are aware of its purpose and goal.▼

The CPMD, as facilitators, also acknowledged the exceptional PGS teams during the workshop in all six regions. These topnotch offices showed teamwork, collaboration and excellence during all the activities and especially, the mind-blowing and nerve-racking online post-test.

Certificates of recognition were then given by the PGS committee representative to the participants from Cebu 1st, Capiz 1st, Lower Kalinga, Ilocos Sur 1st, Mis. Oriental 1st and Agusan del Sur 2nd DEOs.

With the backdrop of the DPWH's Medium-Term Strategic Plan, a name finally came to form - Konkreto2022. The next step was to roll out Konkreto2022 and its three outcomes nationwide. The proposed schedule was set within the first quarter of 2020. The highlights, which will take place after series of lectures, will be the symbolic unveiling of the PGS strategy map effigy, the signing of commitments and the growing viral sensation, konkreto2022 zumba dance.▶

Region VII premiered the cascading last February 3 and 4. With a welcoming rendition of the konkreto2022 zumba dance in the sunny Monday morning, Director Beth Pilorin and Asec Antonio Molano's dance moves was something the 71 participants would remember forever.

From Cebu, the konkreto2022 team flew directly to Iloilo City. Region VI welcomed the PGS committee representatives with open arms from its 72 participants.▶

Useac Cabral and the entire PGS committee extend their gratitude to the Regional Directors, Assistant Regional Directors, District Engineers and Assistant District Engineers who attended and participated in the cascading. More regions will follow suit as the finishline of konkreto2022 is getting nearer, with much advocacies yet to be accomplished. The success of the first konkreto2022 cascading became a proof that with unity and *esprit-de-corps*, the journey towards concrete organizational awareness is possible.

The joyous celebration after the DPWH-PGS was conferred the proficiency status back in 2017 was more than the affirmation it needed after years of incubation. Coming home with a silver trailblazer award meant that the next stage is set so high that the DPWH-PGS will need a full-blown awareness drive. Resonating with the revalida panel, the success of the Department's strategy is hinged on the performance of individuals on the ground.▶

Mindanao then was the only island group that konkreto2022 hasn't set foot yet. Thus, the team flew to CdOC. The golden friendships shared by the 60 participants to the konkreto2022 gave Director Beth and Asec Carvajal a standing ovation. Still high on the mindanaoan's hospitality, konkreto2022 then drove its way to Butuan City. There, Director Villafranca and the team saw 110 strong bodies become animated with every beat of the konkreto2022 dance craze.▶
