

1-20-86

OFFICE OF THE MINISTER
MANILA

09 January 1986

MINISTRY ORDER)
No. 3)
Series of 1986)

SUBJECT: IMPLEMENTATION OF THE
REVISED NATIONWIDE TRAFFIC
COUNTING PROGRAM

To All: Regional Directors
District/City Engineers
And Others Concerned
This Ministry

To provide for a more effective collection of traffic data, effect better control and supervision of traffic counts, reduce cost, time and effort in implementation, and generate accurate and reliable data for planning, design, and maintenance of highways, the MPWH has revised the Nationwide Traffic Counting Program (NTCP). Copies of the revised Program, including the Implementation and Execution Manual and forms to be used in the field, are enclosed for the guidance/reference of all concerned.

All Regional Directors, District/City Engineers, the Planning Service Staff, the Infrastructure Computer Center, and others concerned are hereby directed to implement this revised Program effective 1 March 1986.

The District/City Engineering Offices shall submit all the field data and summary sheets to the Office of the Assistant Minister for Planning, Attention: The Research and Statistics Division, furnishing the Regional Director concerned with copies of the same.

The Research and Statistics Division, Planning Service, shall be responsible for the review, consolidation, processing and computerization of all the data. It shall disseminate the Annual Average Daily Traffic (AADT) to all offices concerned after computerization.

For compliance.

JESUS S. HIPOLITO
Minister
