DEPARTMENT ORDER)

NO. 22)

Series of 2022 # 2/8/2022

**SUBJECT: Amendment to Department Order
 No. 32, Series of 2019, re: Item 522
 – Active and Passive Systems for
 Unstable Slope**

In order to ensure the incorporation of certified products and prevent the use of substandard and counterfeit materials in DPWH infrastructure projects utilizing Item 522 – Active and Passive Systems for Unstable Slope, Section 522.3, Material Requirements of Department Order No. 32, Series 2019 is hereby amended for the guidance and compliance of all concerned, as follows:

"For ongoing projects, all materials to be delivered at site shall be accompanied with a certificate issued by the manufacturer or supplier stating the compliance of the materials with the specification requirements and non-infringement of registered patent. For projects to be bid, the patent, with patent number and the material's country of origin clearly stated, shall be required as part of the technical documents during the bidding and shall be indicated in the checklist. The Contractors shall be mandated to use the materials declared to be used for the project during the bidding process to avoid switching of materials during project implementation."

The amended Specification shall form part of the DPWH Standard Specifications for Highways, Bridges and Airports, Volume II.

This Order shall take effect immediately.
