MINISTRY ORDER )  
NO. 171 )

TO ALL: Bureau Directors  
Highway Regional Directors  
Highway District and City Engineers  
This Ministry

The existing provisions of Department Order No. 27-B, dated September 23, 1974 notwithstanding, it is directed that in order to augment the tire requirements of this Ministry for various equipment presently being used in the different infrastructure projects the following guidelines are hereby issued:

1. In the preparation of individual project program, the costs of tires may be included and charged against the funds of the project concerned.
2. Procurement of tires should be made thru the Petrophil Corporation and/or its duly authorized outlets only. In the event the tires are not available from Petrophil Corporation and/or its authorized dealers, a certification to that effect should be secured therefrom before the same may be purchased locally from other sources thru public bidding in accordance with existing regulations as well as accounting and auditing requirements.
