DEPARTMENT ORDER)

NO. 24)
Series of 2023)

3/7/2023

SUBJECT: Prescribing the use of DPWH Design Management Application (DMA) in the Scheduling, Monitoring and Management of the Preparation of Detailed Engineering Design Plans

In line with the continuing effort of this Department towards the enhancement of management and technical processes, the Design Management Application (DMA) was developed by the Bureau of Design (BOD) together with the Information Management Service (IMS) which aims to support the systematic management of manpower, data, and resources during the preliminary and detailed engineering design phase of infrastructure projects. The DMA ensures consistency in the design process and compliance of plans and design documents with the Department's policies, guidelines, and specifications.

Therefore, with the full development of DMA and with the corresponding training of design engineers, all Regional and District Engineering Offices are hereby mandated to utilize the DMA in the preparation and review of DED plans for civil works projects. It shall commence upon the submission of the Regional Budget Proposal for FY 2024 and onwards.

An electronic copy of the DMA User and Procedure Manuals may be downloaded from the DPWH website.

This Order shall take effect immediately.
