The main functions of the TWG are as follows:

- a. Provide technical inputs and strategic direction for the effective implementation of Output 2 (Flood Control);
- b. Facilitate the review, evaluation, and endorsement of technical studies, designs, and related documentation;

- c. Monitor project progress and ensure compliance with applicable technical standards, guidelines, and agreed timelines;
- d. Review and assess project findings, deliverables, and recommendations;
- e. Provide guidance and resolve technical or operational issues and constraints encountered during project implementation;
- f. Support the Project Steering Committee (PSC), chaired by the Department of Finance (DOF), by providing relevant technical insights and updates; and
- g. Ensure the successful implementation and realization of the project's desired outcomes.

It shall hold quarterly meetings and/or as the need arises, to monitor the progress of the project and discuss compliance of the Consultant with the requirements set forth in the project's Terms of Reference/s.

This order shall take effect immediately.
