Executive Summary

The Income Loss Survey for Barangays Sta. Ana and San Juan, Taytay, Rizal was conducted on May 15-19 and 22, 2017. The Masterlist for the Census and Tagging in Barangays Sta. Ana and San Juan, Taytay, Rizal from National Housing Authority (NHA) was used as the sampling frame for the survey. Only those structures tagged as follows were covered in the survey: (i) 1.2Residential-Commercial; (ii) 1.3Residential-Industrial; (iii) 1.4Residential-Institutional; (iv) 2.1 Commercial; (v) 2.2Industrial; and (vi) 2.3Institutional. A total of 602 establishments were surveyed

Majority of the surveyed establishments were classified under *residential-commercial*. Most of the surveyed establishments particularly *residential-commercial* and *commercial* establishments are engaged into wholesaling and retailing of various products such as sari-sari store/general merchandise, and on food service activities such as eatery/carinderias.

More than half of the surveyed establishments in both barangays did not secure any business permits such as: Barangay, Municipal, Department of Trade and Industry (DTI), and Security and Exchange Commission (SEC). On the average, the surveyed establishments in both barangays had been operating for about four (4) years and operational for about 10 to 13 hours per day at seven (7) days a week. More than half of the surveyed establishments owned the structure where their businesses was built.

Almost all the surveyed establishments have an average number of employees of only two (2) to three (3) employees, implying a relatively small economic activity. On the average, the net income of the surveyed establishments was about P17,574.63 per month or about P585.82 per day.

More than half of the respondents were aware on the proposed resettlement project in the area. Their main sources of information were from: neighbors, meetings conducted by Home Owners Associations (HOA), and meetings and consultations conducted by the barangay. In case of resettlement, almost all the respondents were willing to continue their existing business operations in other areas. They needed on the average about 33 days to resume their normal business operations. On the average, the estimated compensation was about P13,465.96 pesos.

Definition of Terms

Affected by the Project are the establishments that are located within the berm of the Manggahan Floodway in Sta. Ana and San Juan, Taytay, Rizal which were identified and tagged during the census conducted by NHA on November 2016 and February 2017.

Economic activity is the establishment's source of income. If the establishment is engaged in several activities, its main economic activity is that which earns the biggest income or revenue.

Employees are the persons working in the establishment and receiving pay, either on a regular or contractual basis.

Expense is the cost incurred by the establishment during the year whether paid or payable.

Income is the cash received and receivables for goods/products and by-products sold and services rendered by the establishment during the year.

Micro, small, and medium enterprises (MSMEs) are defined as any business activity/enterprise engaged in industry, agri-business/services, whether single proprietorship, cooperative, partnership, or corporation whose total assets, inclusive of those arising from loans but exclusive of the land on which the particular business entity's office, plant and equipment are situated, must have value falling under the following categories:

By Asset Size

Micro	:	Up to P 3,000,000
Small	:	P 3,000,001 - P15,000,000
Medium	:	P15,000,001 - P100,000,000
Large	:	above P100,000,000

Alternatively, MSMEs may also be categorized based on the number of employees:

Micro	:	1 - 9 employees
Small	:	10 -- 99 employees
Medium	:	100 -- 199 employees
Large	:	More than 200 employees ¹

Size of Unit is the size of an economic unit is determined by its total employment (TE) as of specific date. Total employment (TE) refers to the total number of persons who work in or for the establishment/enterprise. This includes paid employees, working owners, unpaid workers and all employees who work full-time or part-time including seasonal workers.²

Size Code	Total Employment	Size Code	Total Employment
0	1-4	5	100-199
1	5-9	6	200-499
2	10-19	7	500-999
3	20-49	8	1000-1999
4	50-99	9	2000 and Above

1. Methodology

The unit of enumeration for the Income Loss Survey (ILS) was all the establishments within the berm of Manggahan Floodway in Barangays Sta. Ana and San Juan, Taytay, Rizal. *An establishment is defined as an economic unit, which engages, under a single ownership or control, in one or predominantly one kind of activity at a single fixed physical location.*³

1.1 Sampling Frame

The updated database of Masterlist for the Census and Tagging in Barangays Sta. Ana and San Juan, Taytay, Rizal was provided by National Housing Authority (NHA). The census was conducted on November 2016 and February 2017. This database served as basis as for the sampling frame for the ILS.

Only those structures tagged as follows were covered in the survey:

- 1.2 Residential - Commercial
- 1.3 Residential - Industrial
- 1.4 Residential - Institutional
- 2.1 Commercial
- 2.2 Industrial
- 2.3 Institutional

Attached is Annex A is the location maps of the establishments.

1.2 Sampling Design

Complete enumeration was used in the survey. A total of 602 establishments were interviewed. About 479 establishments were under the NHA list of establishments, and 123 surveyed establishments which were on top of the NHA list of establishments.

Out of the 626 population census by NHA, only 479 were surveyed. There were 147 (48 - Sta. Ana and 99 - San Juan) establishments that were not interviewed due to: (i) unavailability of the sample respondents (65), (ii) refused to be interviewed (14), (iii) stopped operations (36), (iv) permanently transferred to other municipalities or areas (7), and (v) public facilities, institutional, vacant, etc. (25).

Table 1. NHA Population vis-à-vis Actual Surveyed by Type of Establishment*

Type	Sta. Ana			San Juan			All		
	NHA	Surveyed		NHA	Surveyed		NHA	Surveyed	
		No	%		No	%		No	%
Residential - Commercial	186	150	80.65	302	245	81.13	488	395	80.94
Residential - Industrial	5	5	100.00	9	6	66.67	14	11	78.57
Residential - Institutional	2	1	50.00	1	0	0.00	3	1	33.33

Institutional	3	2	66.67	15	1	6.67	18	3	16.67
Total	234	186	79.49	392	293	74.74	626	479	76.52

*Percentage is computed row by row

³Based on the Philippine Statistics Authority (PSA) definition in the Census of the Philippine Business and Industry (CPBI).

Note that during the actual survey, there some of the establishments had different the use of their structure vis-à-vis the NHA use of structure. Although, there was changed on used of structure, the Survey Team still adopted the NHA tagged number for the specific structure.

Table 2. Change of Use of Structure vis-à-vis NHA List

<i>Change on the use of structure</i>		Sta. Ana	San Juan	All
<i>Old</i>	<i>New</i>			
1.2 - Residential - Commercial	1.4 - Residential - Institutional	1	0	1
1.3 - Residential - Industrial	1.2 - Residential - Commercial	1	0	1
1.4 - Residential - Institutional	1.2 - Residential - Commercial	1	0	1
2.2 - Industrial	2.1 - Commercial	0	1	1
Total		3	1	4

The Survey Team was able to identify and survey 123 establishments that were not included in the NHA list of establishments but with NHA tagged for different classification. There were due to: (i) Change of use of structure: From Purely Residential to Residential – Commercial; (ii) Newly Opened Establishments; and Establishments singly tagged by NHA but were multiple surveyed due to existence of sub-establishments within the establishments particularly those classified as *commercial*. Note that the Survey Team still adopted the NHA tagged number for the specific structure. Likewise, for those establishments with sub-establishments, the Survey Team still adopted the NHA tagged number, thus, the sub-establishments have same tagged numbers.

Total	206	396	602

1.3 Data Collection

A Survey Team Leader ensured the smooth conduct of the survey, as well as the quality of data gathered. Seven (7) local enumerators with experience in data collection provided support in the survey who will be directly supervise by one (1) Survey Supervisor.

A one-day Enumerators' Training was conducted on February 25, 2017 at Woodfields Consultants, Inc. office in Kamias Road, Quezon City. The enumerators were trained by the Survey Team Leader on the use of the survey instrument and proper encoding.

The actual ILS was conducted from May 15-19, 22, 2017. The enumerators were provided with the tagged numbers of the structures, as well as the names of owners to be located and interviewed.

The respondents wereonly being classified as "cannot be interviewed" on the following reasons:

- refused to be interviewed/vacant establishments
- cannot be located
- stopped operations
- transferred to other municipalities or areas
- after three (3) call backs of the enumerators, i.e. when interview did not take place due to unavailability.

Data was encoded, processed and analysed using the Statistical Package for Social Sciences (SPSS), and Microsoft Access and Excel.

A database on the master lists of establishments surveyed was generated.

2. Survey Results

2.1 Profile of the Establishment

2.1.1Nature of Business

Of the 602 establishments surveyed, about 83 percent of which were classified under *residential-commercial*. It was noted that most of the surveyed *residential-commercial and commercial* establishments are engaged into wholesaling and retailing of various products such as sari-sari store/general merchandise, and on food service activities such as eatery/carinderias.

Residential-industrial and Industrial establishments are mostly into manufacturing and fabrication of various products such as garments, woods, hollow blocks, aluminum, and among others.

Institutional establishments are: two (2) Christian Churches; and two (2) schools.***Attached is Annex B for the detailed breakdown of the nature of the business by type.***

Table 5. Number of Establishments Surveyed by Type of Establishments

Type	No	%
Residential - Commercial	500	83.06
Residential - Industrial	10	1.66
Residential - Institutional	1	0.17
Commercial	83	13.79
Industrial	5	0.83
Institutional*	3	0.50
Total	602	100

*includes two (2) Christian churches

Note that the classification of establishments was adopted based on the major economic sectors within the scope of the Philippine Statistics Authority (PSA) Census of Philippine Business and Industry (CPBI) under the 2009 Philippine Standard Industrial Classification (PSIC). Below were the major classifications of the establishments surveyed.

Table 6. Number of Establishments Surveyed by Classification

Classification	Sta. Ana	San Juan	All
Manufacturing	3	7	10
Water Supply; Sewerage, Waste Management and Remediation Activities	0	2	2
Construction	4	7	11
Wholesale and Retail Trade; Repair and Maintenance of Motor Vehicles, Motorcycles	184	271	455

Human Health and Social Work Activities	0	3	3
Arts, Entertainment and Recreation	8	15	23
Other Service Activities	14	19	33
Total	240	362	602

2.1.2 Legitimacy of the Establishment

More than half of the surveyed establishments in both barangays secured business permits such as: Barangay, Municipal, Department of Trade and Industry (DTI), and Security and Exchange Commission (SEC).

Barangay and municipal business permits were the most commonly secured permits. Notably, most of the *residential-commercial* establishments only secured Barangay business permits. In addition, there were only five (5) establishments that have SEC registration, namely: La Jocris Cycle Parts; FMV Woodworks; Home of Little JhonV'll Learning Center, Inc.; Ma. Teresa Integrated School, and Shiloh Enterprise Inc. **Attached is Annex C for the detailed breakdown of legitimacy of the business by type.**

**Table 7. Number of Respondents with and without Business Permit
by Type of Establishment**

2.1.3 Years of Existence

On the average, the surveyed establishments in both barangays had been operating for about four (4) years. However, it was noted that there were 108 establishments that had just been operating for about six (6) months and below. Of these 108 establishments, 34 of them were only operating for about one month and less. There were 16 establishments which are mostly sari-sari store that had just been operating for about three (3) weeks and below.

The newest establishments surveyed were just been operational for only about two (2) to five (5) days. ***Attached is Annex D for the detailed breakdown of the years of existence by type.***

Table 8. Average Years of Existence by Type of Establishment

Type	Sta. Ana	San Juan	All
Residential - Commercial	3.6	4.1	3.9
Residential - Industrial	1.3	4.8	3.4
Residential - Institutional	0.0	0.0	0.0

Industrial	3.0	5.8	5.2
Institutional	20.5	2.5	14.5
Overall Average	4.0	4.1	4.1

2.1.4 Ownership of the Structure

About 65 percent of the surveyed establishments owned the structure where their businesses were built. However, it was noted that in Barangay Sta. Ana, majority of the *commercial* establishments surveyed did not owned their business structure which were mostly rented.

**Table 9. Number of Respondents Owned and Not Owned the Business Structure
by Type of Establishment**

Total	131	54.58	109	45.42	240	100.00	259	71.55	103	28.45	362	100.00	390	64.78	212	35.22	602	100.00

2.2 Operation of the Establishment

2.2.1 Business Operation

On the average, almost all types of establishments were operating ranging from 10 to 13 hours per day. However, it was noted that those classified as *industrial and institutional* operates less than ten (10) hours a day due to its nature of business. These establishments operate at seven (7) days a week except the *institutional* which is a school, operating at five (5) days a week and the Churches, operating only at two (2) days a week particularly during Saturday and Sunday.

Table 10. Average Business Operating Hours and Days by Type of Establishment

Type	Sta. Ana		San Juan		All	
	Ave. Operating Hours	Ave. Operating Days	Ave. Operating Hours	Ave. Operating Days	Ave. Operating Hours	Ave. Operating Days
Residential - Commercial	13	7	14	7	14	7
Residential - Industrial	9	6	11	6	10	6
Residential - Institutional	8	5			8	5
Commercial	13	7	13	7	13	7
Industrial	4	7	9	6	8	6
Institutional	9	3	8	5	8	3
Overall Average	13	7	14	7	13	7

2.2.2 Average Number of Employees

Almost all the surveyed establishments have an average number of employees of only two (2) to three (3) employees. This fall under 0 of *Size of Establishments* as classified in the CPBI of PSA, implying a relatively small economic activity.

Table 11. Average Number of Employees by Type of Establishment

Type	Sta. Ana		San Juan		All	
	Contractual	Regular	Contractual	Regular	Contractual	Regular
Residential - Commercial	3	2	3	2	3	2
Residential - Industrial	2	3	4	10	3	7
Residential - Institutional		5	0	0		5
Commercial		2	3	2	3	2
Industrial				5		5
Institutional				5		5
Overall Average	3	2	3	2	3	2

However, there some establishments that have more than four (4) employees, which implies a relatively larger business activity, as shown in Table 8. These were mostly classified under *commercial* establishments.

In terms of MSEMs categorization of DTI, almost all of the establishments fall under Micro type of establishments. There were only three (3) establishments fall under Small type of establishments. ***Attached is Annex E for the detailed breakdown of the size of establishment building structure by type.***

Table 12. Establishments with more than four (4) employees

2.3 Average Income and Expense of the Establishment

On the average, the net income of the surveyed establishments was about P17,574.63 per month or about P585.82 per day. However, it was noted that those establishments fall under 2 and 3 of Size Unit, namely: *Krynpaul Trading*; *Adanao Bakery*; *Shiloh Enterprise Inc.* had a higher monthly net income at P130,000.00, P30,000.00, and P25,000.00, respectively.

While, those establishments that are into sari-sari store which was dominant business in the surveyed areas had an average monthly income of P14,031.86 or about P467.73 per day.

Note that there were 17 establishments that refuse to divulge details on their financial; and 63 establishments provided incomplete details. ***Attached is Annex F for the detailed breakdown of the net income of establishment by use of structure and DTI classification.***

2.4 On Resettlement Project

2.4.1 Level of Awareness

More than half of the respondents were aware on the proposed resettlement project in the area. Their main sources of information were from: neighbors, meetings conducted by Home Owners Associations (HOA), and meetings and consultations conducted by the barangay. **Attached is Annex G for the detailed breakdown of the sources of information.**

However, it was noted that majority of the respondents for the *residential-industrial* and *commercial* establishments in both barangays were not aware on the proposed project.

Note: two (2) respondents refused to answer

2.4.2 Willingness to Continue Business on Other Areas

In case of resettlement, almost all the respondents were willing to continue their existing business operations in other areas. However, there were about seven percent (7%) of them that were not willing to continue their existing business, as their decision will be dependent on the location where they will be relocated.

Table 16. Willingness of the Respondents to Resume Business Operations in Other Areas by Type of Establishment

Executive Summary

The Income Loss Survey for Barangays San Andres and San Juan, Cainta, Rizal was conducted on June, 2017. Complete enumeration was used in the survey. Out of the 1,276 establishments census, 1,065 establishments were interviewed. There were 211 establishments that were not interviewed due to: (i) unavailability of the sample respondents, (ii) refused to be interviewed, (iii) stopped operations, (iv) permanently transferred to other municipalities or areas, and public facilities, vacant, and etc.

Of the 1,065 establishments surveyed, almost all the establishments were classified as micro establishments. More than half of the surveyed establishments in both barangays secured business permits, which were mostly Barangay business permits.

On the average, the surveyed establishments in both barangays had been operating for at least four (4) years, operating ranging from 9 to 15 hours per day, at seven (7) days a week. The average net income of the surveyed establishments was about P17,609.69 per month or about P586.69 per day.

More than half of the respondents in Barangay San Andres were not aware on the proposed resettlement project. On the other hand, majority of the respondents were aware on the proposed resettlement project in the area. Their main sources of information were from: neighbors, meetings and consultations conducted by the barangay, and from National Housing Authority (NHA) staff.

In case of resettlement, almost all the respondents were willing to continue their existing business operations in other areas. The average days needed to resume their normal business operations was 22 days. On the average, the estimated compensation was about P13,566.78.

Definition of Terms

Affected by the Project are the establishments that are located within the berm of the Manggahan Floodway in San Juan and San Andres, Cainta, Rizal which were identified and tagged during the census conducted by NHA.

Economic activity is the establishment's source of income. If the establishment is engaged in several activities, its main economic activity is that which earns the biggest income or revenue.

Employees are the persons working in the establishment and receiving pay, either on a regular or contractual basis.

Expense is the cost incurred by the establishment during the year whether paid or payable.

Income is the cash received and receivables for goods/products and by-products sold and services rendered by the establishment during the year.

Micro, small, and medium enterprises (MSMEs) are defined as any business activity/enterprise engaged in industry, agri-business/services, whether single proprietorship, cooperative, partnership, or corporation whose total assets, inclusive of those arising from loans but exclusive of the land on which the particular business entity's office, plant and equipment are situated, must have value falling under the following categories:

By Asset Size

Micro	:	Up to P3,000,000
Small	:	P3,000,001 - P15,000,000
Medium	:	P15,000,001 - P100,000,000
Large	:	above P100,000,000

Alternatively, MSMEs may also be categorized based on the number of employees:

Micro	:	1 - 9 employees
Small	:	10 -- 99 employees
Medium	:	100 -- 199 employees
Large	:	More than 200 employees ¹

Size of Unit is the size of an economic unit is determined by its total employment (TE) as of specific date. Total employment (TE) refers to the total number of persons who work in or for the establishment/enterprise. This includes paid employees, working owners, unpaid workers and all employees who work full-time or part-time including seasonal workers.²

Size Code	Total Employment	Size Code	Total Employment
0	1-4	5	100-199
1	5-9	6	200-499
2	10-19	7	500-999
3	20-49	8	1000-1999
4	50-99	9	2000 and Above

1. Methodology

The unit of enumeration for the Income Loss Survey (ILS) was all the establishments within the berm of Manggahan Floodway in Barangays San Andres and San Juan, Cainta, Rizal. *An establishment is defined as an economic unit, which engages, under a single ownership or control, in one or predominantly one kind of activity at a single fixed physical location.*³

1.1 Sampling Design

Complete enumeration was used in the survey. With the absence of masterlist from the NHA, the Survey Team conducted a census of all the establishments in Barangays San Andres and San Juan, Cainta, Rizal. Note that only those establishments with NHA tagged were surveyed.

Out of the 1,276 establishments census, 1,065 establishments were interviewed. There were 211 establishments that were not interviewed due to: (i) unavailability of the sample respondents, (ii) refused to be interviewed, (iii) stopped operations, (iv) permanently transferred to other municipalities or areas, and public facilities, vacant, and etc.

Table 1. Actual Surveyed by Type of Establishment

Barangay	No	%
San Andres	825	77.46
San Juan	240	22.54
All	1,065	100.00

Table 2. Actual Surveyed by Type of Establishment

Reasons	No	%
Unavailability of the sample respondents	97	45.97
Refused to be interviewed	24	11.37
Stopped operations	56	26.54
Permanently transferred to other municipalities or areas	8	3.79
Public facilities, vacant, and etc.	26	12.32
Total	211	100.00

³Based on the Philippine Statistics Authority (PSA) definition in the Census of the Philippine Business and Industry (CPBI).

1.2 Data Collection

A Survey Team Leader ensured the smooth conduct of the survey, as well as the quality of data gathered. Seven (7) local enumerators with experience in data collection provided support in the survey who will be directly supervise by one (1) Survey Supervisor.

A one-day Enumerators' Training was conducted on February 25, 2017 at Woodfields Consultants, Inc. office in Kamias Road, Quezon City. The enumerators were trained by the Survey Team Leader on the use of the survey instrument and proper encoding.

The actual ILS was conducted from June, 2017. The areas were clustered into eight (8), and only those establishments that with NHA tagged numbers of the structures were surveyed.

The respondents wereonly being classified as "cannot be interviewed" on the following reasons:

- refused to be interviewed/vacant establishments
- cannot be located
- stopped operations
- transferred to other municipalities or areas
- after three (3) call backs of the enumerators, i.e. when interview did not take place due to unavailability.

Data was encoded, processed and analysed using the Statistical Package for Social Sciences (SPSS), and Microsoft Access and Excel.

A database on the masterlists of establishments surveyed was generated.

2. Survey Results

2.1 Profile of the Establishment

2.1.1 Nature of Business

Of the 1,065 establishments surveyed, almost all the establishments were classified as micro establishments. Note that type of establishments was based on the DTI business classification. This was used as replacement on the use of structure since there was no available information on that. **Attached is Annex A for the detailed breakdown of the nature of the business by type**

Majority of the micro surveyed establishment were into retailing of various products such as sari-sari store. While, three (3) small establishments were into construction (2) particularly on hardware, and installation of glass and aluminum; and machine repair shop (1).

2.4 On Resettlement Project

2.4 1 Level of Awareness

It was noted that more than half of the respondents in Barangay San Andres were not aware on the proposed resettlement project. On the other hand, majority of the respondents were aware on the proposed resettlement project in the area. Their main sources of information were from: neighbors, meetings and consultations conducted by the barangay, and from National Housing Authority (NHA) staff.

Table 15. Level of Awareness of the Respondents on the Resettlement Project by Type of Establishment

Total	476	100

2.4.2 Willingness to Continue Business on Other Areas

In case of resettlement, almost all the respondents were willing to continue their existing business operations in other areas. However, there were about four (4%) that were not willing to continue their existing business, as their decision will be dependent on the location where they will be relocated.

Table 17. Willingness of the Respondents to Resume Business Operations in Other Areas by Type of Establishment

Type	San Andres						San Juan						All					
	Willing		Not Willing		Total		Willing		Not Willing		Total		Willing		Not Willing		Total	
	No	%	No	%	No	%	No	%	No	%	No	%	No	%	No	%	No	%

OFFICE OF THE MUNICIPAL MAYOR

CERTIFICATE OF SUPPORT

This is to Certify that this Municipality will be providing the necessary support/assistance to the proposed implementation of the 3rd Stage of the construction/civil works component of the Pasig-Marikina River Channel Improvement Project (PMRCIP), Phase IV, to be undertaken by the Department of Public Works and Highways (DPWH), particularly in the relocation and resettlement of the ISFs residing along and within the Manggahan Floodway covered within its territorial jurisdiction.

This certification is being issued upon the request of the DPWH, through Mr. EMIL K. SADAIN, CESO I, Undersecretary for UPMO Operations and Technical Services pursuant to the requirement of Japan International Cooperation Agency (JICA) on the formulation of the Official Development Assistance (ODA) Loan Programme for the above-mentioned subject project.

Given this 24th day of July 2018 at Cainta, Rizal.

Final Draft
Memorandum of
Understanding with
LGU and AGF

**MEMORANDUM OF UNDERSTANDING
FOR ACQUISITION OF LOTS
IN THE DON ENRIQUE HEIGHTS SUBDIVISION IN TAYTAY, RIZAL
FOR THE RESETTLEMENT OF INFORMAL SETTLERS
FROM THE MANGGAHAN FLOODWAY FOR THE
DPWH-PMRCIP PHASE IV PROJECT-AFFECTED FAMILIES (PAFs)**

KNOW ALL PEOPLE BY THESE PRESENTS:

This Memorandum of Understanding is made and entered into by and between:

The **UNIFIED PROJECT MANAGEMENT OFFICE - FLOOD CONTROL MANAGEMENT CLUSTER** of the **DEPARTMENT OF PUBLIC WORKS AND HIGHWAYS (DPWH)**, with office address at 2nd Street, Port Area, Manila City, , hereinafter referred to as the **“FIRST PARTY”**, represented by **DIR. PATRICK B. GATAN**;

- and -

The **ASIA GENERAL CORPORATION (AGC)**, a private corporation under the Republic of the Philippines with **SEC Registration No. 158701** with office address at 2nd Floor, AIC Grande Tower, Garnet Road, Ortigas Center, Pasig City, who owns the Don Enrique Heights Subdivision with **Transfer Certificate of Titles (TCTs)** attached hereto with a total land area of **18 hectares**, represented herein by its Attorney-In-Fact, **DR. AUGUSTO LEGASTO JR.**, pursuant to **Corporate Board Resolution dated June 15, 2017** and hereinafter referred to as the **“SECOND PARTY”**;

- and -

The **MUNICIPAL GOVERNMENT OF TAYTAY, RIZAL**, a local government unit with office address at Don Hilario Cruz Avenue, Club Manila East Compound, Barangay San Juan, Taytay, Rizal, represented herein by its Local Chief Executive, **GEORGE RICARDO GACULA II**, and hereinafter referred to as the **“THIRD PARTY”**;

(collectively, the “Parties”)

WITNESSETH THAT:

WHEREAS, the Pasig-Marikina River Channel Improvement Project Phase IV (PMRCIP-IV) is a national government priority project that involves the rehabilitation of the Manggahan Floodway covering 10kms from the Rosario Weir in Pasig City stretching along the municipalities of Cainta, Rizal and Taytay, Rizal towards Laguna Lake, to be implemented with funding assistance from the Government of Japan (GOJ);

WHEREAS, there are building and housing structures located between the East Bank and the West Bank of the said floodway situated within the jurisdiction of the **THIRD PARTY** that will need to be cleared prior to the start of civil works construction planned by 2022;

WHEREAS, based on the census tagging and socio-economic survey conducted by the National Housing Authority (NHA) from October to December 2017, the implementation of the Project will adversely affect about **3,102 structures** causing the displacement of some **4,269 Project-Affected Families (PAFs)**, who are presently occupying, doing business in and/or using the areas within the floodway;

WHEREAS, based on a study commissioned by the **FIRST PARTY** for purposes of developing a Resettlement Action Plan (RAP) to address the impact on the PAFs, and working closely with the Urban Poor Affairs Office (UPAO) of the **THIRD PARTY**, it was determined that a suitable relocation site has been identified specifically within the Don Enrique Heights Subdivision which is owned by the **SECOND PARTY**;

WHEREAS, it was reported by the **SECOND PARTY** that nearly twenty percent (20%) of the entire eighteen (18) hectare have been infiltrated by informal settlers and squatting syndicates;

WHEREAS, it was agreed by the **PARTIES** that the **SECOND PARTY** and the **THIRD PARTY** will relocate and resettle the present illegal informal settlers in the aforesaid property to another area outside the area to be acquired by the **FIRST PARTY** and thus allowing the latter unencumbered use of the property it wishes to acquire;

WHEREAS, upon the advise and facilitation of the **THIRD PARTY** and related local departments in order to ensure the availability of said property for the eventual construction of housing structures and relocation of the PAFs from the Manggahan Floodway to undertake this Memorandum of Understanding before the parties involved;

WHEREAS FURTHER, in order to be mutually assured in an atmosphere of “willing to buy- willing to sell” the required area of land for the purpose of relocation and resettlement of PAFs within the floodway, the **PARTIES** have reached an understanding to henceforth collaborate and coordinate on securing the availability of said lots;

NOW, THEREFORE, in consideration of the foregoing premises, the **PARTIES** hereby agree to abide by the following terms, conditions and mutual covenants of understanding:

ARTICLE 1

ROLES AND RESPONSIBILITIES

1.1. The **FIRST PARTY** shall:

- 1.1.1. Include in its Fiscal Year (FY) 2019 budget request from the General Appropriations the funds necessary for the acquisition and procurement of the required hectarage of land from the **SECOND PARTY** for the purpose of relocating and resettling the PAFs from the Manggahan Floodway;
- 1.1.2. Commit itself to procuring such required hectarage of land from the **SECOND PARTY** before the end of calendar year (CY) 2020;
- 1.1.3. Expedite the payment of the acquired property to **SECOND PARTY** in the amount mutually agreed upon based on assessed current market value;
- 1.1.4. Request the active assistance of the Philippine National Police (PNP) and other concerned government agencies including the **THIRD PARTY**, to protect the

aforesaid property and prevent the encroachment of squatting syndicates and other people to assure and ensure the adequate availability of the land for its own project's PAFs; and,

- 1.1.5. Work closely with the **THIRD PARTY** in developing the accessibility of the property by mutually planning and implementing the development of public access roads to the property before the actual relocation and resettlement of the PAFs.

1.2. The **SECOND PARTY** shall:

- 1.2.1. Commit to sell to **FIRST PARTY** such hectarage of lands required for the relocation and resettlement of Project-Affected Families from the Manggahan Floodway within the calendar year (CY) 2019 up to 2020;
- 1.2.2. Allow access to **FIRST PARTY** and its appointed representatives, appraisers and consultants open access to assess, evaluate, appraise and conduct relevant studies in, on and at the target lot property/ies in accordance with proper communication protocol to be mutually agreed and set upon with the **FIRST PARTY**;
- 1.2.3. Commit to provide a resettlement site for the existing informal settlers in their property and to relocate and resettle these with the assistance from the **THIRD PARTY**;
- 1.2.4. Ensure to its utmost the availability of the property from illegal encroachment in collaboration with law enforcement agencies mutually identified and requested by the **FIRST PARTY** and the **THIRD PARTY**; and,
- 1.2.5. To regularly advise and immediately inform the **FIRST PARTY** and the **THIRD PARTY** of any encroachment to the property.

1.3 The **THIRD PARTY** shall:

- 1.3.1. Commit to assist and support the relocation and resettlement of the Project-Affected Families (PAFs) occupying the Manggahan Floodway as contained in the Resettlement Action Plan (RAP) prepared by the **FIRST PARTY**;
- 1.3.2. Commit to assist and support the relocation and resettlement with all the necessary requisites, together with the **SECOND PARTY**, of the existing illegal informal settler families within the Don Enrique Heights Subdivision so as to allow its unencumbered use by the **FIRST PARTY** in relocating and resettling the PAFs from Manggahan Floodway;
- 1.3.3. Assist the **FIRST PARTY** in communicating with the **SECOND PARTY**; and,
- 1.3.4. Work closely with the **FIRST PARTY** in developing the accessibility of the property by mutually planning and implementing the development of public access roads to the property before the actual relocation and resettlement of the PAFs from Manggahan Floodway.

ARTICLE 2

AMENDMENT

This Memorandum of Understanding (MOU) may not be amended, modified or otherwise revoked, except by mutual agreement in writing by the **PARTIES**.

ARTICLE 3

EFFECTIVENESS AND DURATION

This Memorandum of Understanding (MOU) shall take effect immediately and shall be in full force until terminated, amended, or otherwise revoked by mutual consent of the parties.

IN WITNESS WHEREOF, the parties have hereto affixed their respective signatures and execute this Understanding on this ____ day of _____ at Taytay, Rizal.

Indicative timeline of implementation of RAP

PASIG-MARIKINA RIVER CHANNEL IMPROVEMENT PROJECT (PHASE IV)
RAP FOR MANGGAHAN FLOODWAY IMPLEMENTATION SCHEDULE (TENTATIVE)

[illegible]

The assumptions are:

Housing Design finalized (based on HUDCC Standards)

Construction strategy and methodology has been finalized (may require simultaneous building construction);

The Terms of Reference for the Building Contractor has been finalized and approved;

Bidding process for the Building Contractor (takes about 3-6 months) followed immediately by Awarding and Notice to Proceed (NTP) issuance;

For Cainta, some of the possible proposed relocation sites are located within an existing subdivision, hence, there's no need for a site development of the same.

Records of Public Consultation Proceedings in Taytay (1st & 2nd)

A8.1 1ST TAYTAY PUBLIC CONSULTATION PROCEEDINGS (26 JULY 2018)

The first Public Consultation to disclose the formulated RAP (26 July 2018) was attended by not more than 200 people residing in Floodway A (left bank sided). There were also households residing in the Floodway B noted that attended the said activity (see **Annex 11** for the copy of attendance sheets). The attendees are also active members of different local organizations and associations. In general, 21 organizations present in the activity such as neighborhood associations (NAs), homeowners associations (HOAs) and federation (see **Annex 12** for the list of organizations).

During the activity, the DPWH-UPMO-FCMC explained the background and purpose of the Pasig-Marikina River Channel Improvement Project (PMRCIP) to the attendees. Meanwhile, the Consultants presented the background and rationale about the fourth phase of the project and finally, the content of the formulated RAP to the attendees (including the legal basis, result of the census and socio-economic survey, entitlement and compensation matrix, location of the resettlement site, indicative design of the housing, amount of the housing units and project IV's timeline). An open forum was held after the presentation to provide the attendees with opportunities to express their thoughts and raise questions. **Annex 9** shows the program of the activity and the copy of primer/flyers that was distributed during the activity while **Annex 13** shows the copy of the presentation used.

The following summarize the discussion during the open forum of the public consultation. **Table A8-1** shows the summary of details of the activity while **Plates A14-1 to A14-9** of **Annex 14** shows the overview of the activity.

- Mr. Quirante expresses his opinion about the planned activities. He demanded the presence of Undersecretary Villar in sessions as he said that their queries could not reach his office. To further his stand, he said that Congressman Benitez and HUDCC assured them that demolition will not push through. He further asserted that the plan of the residents in the floodway should be considered, and that the meeting with the inter-agency should be followed through
- Mrs. Advincula asked about the actual size of 20 sqm in person. She also asked about the actual monthly payment should the PhP 450,000.00 will be paid in 30 years. Further, she asked the proponent if, aside from the midrise building, row houses will be one of the options/choices of the people. She further asked if the 20 sqm size of dwelling unit considered the comfort of their family, if the living room, bedrooms, comfort rooms and the number of their children can fit in.
- Mr. Paz explains that the 20 sqm will have a dimension of 4 m x 5 m. He also explained that the medium rise building (MRB) was chosen due to the lack of available lot. If all affected families will be given row houses each, then the 18 hectares of lot in Don Enrique Heights will not be sufficient. In addition to this, the amount will be higher since the amount of lot will now be included.
- A female participant said that historically, floodwaters did not reach their houses and that no accidents have thus far occurred. She also stressed that based on the result of the boring test that was conducted within the berm, the area is stable and can support structures.
- A male participant also said that where they are living now is safe. Nevertheless, he said that they understand the project and its purpose however, he said that Engr. Del Rosario and Engr. Buan assured them previously that no demolition will

push through. He suggested that instead of relocation, reinforcement of the floodway to protect them, instead of buying a new lot, should be done instead.

- Mr. Marcos was about to explain about the history of the Don Enrique Heights Subdivision but the people kept him from speaking further saying that he is selling the people to DPWH.
- A male participant asked for the lifespan of the proposed MRB. Because according to him, he knows that a typical lifespan of this type of building is 30 to 50 years. And if this project pursues, once the 50 years is reached, people will be evicted because the building will be demolished. This will not promise them land tenure. Once the building is demolished, who will build it again? The DPWH will spend again and create new problem. He further said that they prefer row houses instead because if the structure fails, it is the owners that will fix it and not the government instead. He asked for this option to be studied.
- Ms. Pimentel asked the proponent why this is the first time DPWH ever came down to the ground/community and while the study is being conducted. She complained that the impact of the project is very sudden.
- Another male participant demanded that the reinforcement of the floodway to protect the residents should be done instead of spending another location for the people.
- Another male participant said that the people from Floodway A and B stand on the assurance given to them that no demolition will be done. He also shared that since 1990, there are no damages done to them. Even during Ondoy, when people relocated to the covered court (the venue itself),
- Another female participant is a resident in the floodway since 2002 and a former OFW. She said that she experienced living in a tenement and she is fine with that. She asked about how many floors there is in the MRB. She said that the plan should consider having ramps or elevator because where she came from (other country), the tenements do not have elevators which is very hard for the senior citizens and the people with disability (PWD). She, however, expressed that instead of spending a lot to relocate them, the proponent should survey the area instead to explore the possibility of developing the side the berm into residential area.
- Mr. Joel asked the Consultants if they also considered developing the floodway into a residential area instead of relocating them because they preferred to stay than be removed. He insisted that a row house should be built instead in the area.
- Mr. Paz reiterated the information about the plan to the attendees. He said that a row house is not feasible for this situation because of the number of people to be relocated which will entail more land requirement. He also stressed that a row house will further increase the total amount of the dwelling units because the cost of the land has to be incorporated.

In addition to this, he explained that the reason why the people did not experience grave flooding in the area is because the floodgate in the Rosario Bridge is not properly working that time and that the impounded water flowed back into the areas upstream. Should the floodgate be rehabilitated, more

floodwaters will now enter the waterway.

In terms of the question raised if the option of developing the floodway into residential area was considered, Mr. Paz explained that the project itself of DPWH makes the habitation in the area unfavorable.

- Mr. Joel further asked if the Consultants even saw the test that the residents did within the floodway. And if the Consultants can further suggest plans that is aligned with their plans.
- Mr. Paz said that the study team already asked the leaders of the HOAs and NAs about the copy of the test result but none were given. He further explained that a borehole test will measure how deep soil profile is until it reaches a hard soil. He also asked if the cost of ground leveling or structural support for putting up housing in the floodway is even considered by the plan of the residents because this will be very costly.
- Mr. Quirante said that they have not given the copy of the result to the Consultants yet. He demanded that the people's plan should be compared with the plan made by DPWH and a meeting from both parties should be done with the presence of Secretary Villar.
- Mr. Espino appreciated the concern of the government towards the safety of the people. He even thanked the DPWH for the dredging activities done along the floodway. But since they observed that such is helpful to keep the floodway from flowing, he said that the relocation might not be needed because the dredging is already effective.
- Finally, a female participant expresses strong position that a resolution on the plan is needed not demolition.

A8.2 2ND TAYTAY PUBLIC CONSULTATION PROCEEDINGS (31 JULY 2018)

The second session of Public Consultation to disclose the formulated RAP (31 July 2018) was attended by 38 people residing in Floodway B (right bank sided) (see **Annex 11** for the copy of attendance sheets). In this session, the attendees represented three organizations namely, Nagtinging Sitio Siwang NAI, Bagong Pag-asa HOAI and Kapit Bisig sa Sitio Siwang NAI.

Similar with the previous session, the DPWH-UPMO-FCMC explained the background and purpose of the Pasig-Marikina River Channel Improvement Project (PMRCIP) to the attendees. Meanwhile, the Consultants presented the background and rationale about the fourth phase of the project and finally, the content of the formulated RAP to the attendees (including the legal basis, result of the census and socio-economic survey, entitlement and compensation matrix, location of the resettlement site, indicative design of the housing, amount of the housing units and project IV's timeline). An open forum was held after the presentation to provide the attendees with opportunities to express their thoughts and raise questions.

The following summarize the discussion during the open forum of the public consultation. **Table 1** shows the summary of details of the activity while **Plates A14-10 to A14-22** of **Annex 14** show the overview of the activity.

- Ms. Estrella Silat asked the proponent if the current unit size of 20 sqm can be increased. She also said that she thinks that the price for each unit is too high for low-income families to afford.

Mr. Paz explained that the 20 sqm was based on the computation of the architects and engineers based on the ceiling price of PhP 450,000. He also explained that the amortization per floor will differ because the lower ground will be more expensive than that on the 5th floor. Also, the amount will depend on the adjustments considered by NHA with regard to the financial capacity of each household. Meanwhile, the payment of PhP 200.00 per month for the first five years is in accordance to the standards of Socialized Housing Projects may not be too much compared to what is being paid by the people in the floodway. The price will be calibrated to increase, but only in a gradual manner.

Mr. Paz furthered that despite row houses cost lesser; the available lot can only accommodate medium-rise buildings (MRBs). As required by the Municipal Mayor, relocation sites should be within Taytay. MRBs are easier to develop as well as conducive within the site, as opposed to raw houses.

- Ms. Norieta Bansal inquired regarding the mechanism of census and tagging during the SES conducted in 2016. For her case, she and her sister's family have been staying under one roof until recently. But recently, they decided to divide their house into two. Ms. Bansal wanted to know whether this entails that only her sister will be qualified for relocation.

Mr. Paz clarified that NHA assigned the white tag to each structure and a household is recognized if it has its own kitchen. During the SES, families per structures are counted. For example, if Structure 1 has two household, it will be noted as Family 1A, and Family 1B, accordingly.

In cases of complicated conditions, NHA will contact the concerned families from its master list and will clarify things with them (ISFs). The master list includes the names of families per household. NHA. NHA will address this type of case.

- Ms. Manito brought up that she is having her lot rented. She asked she would also be qualified for relocation or would the person renting her lot be considered instead of her.

Mr. Paz explained that NHA will determine the eligibility in cases like this. He

further said that the concerned agencies will ensure that no qualified household will lose an opportunity to be relocated.

- Ms. Nancy Frances raised the concern on the existing rule allowing structures to be built 15 m from the waterway. She asked if households at this distance would still be allowed to stand.

Mr. Paz explained that the case might not be possible, since drastic changes are viable to occur due to climate change which will be more hazardous to them. He also said that the government's side is open to counter-arguments, as long as both sides remain reasonable with one another. He also assured them that the government will not disregard their rights and opinions.

- Further urged the other people with doubts to look at all available options and to compare variables. The relocation site is open to those who want to survey it. If people wanted to stay in the floodway, he reminded them that the affected area will not be a permanent place for them. Aside from this, informal settler families cannot claim land ownership.

TUNGO SA MAS LIGTAS NA PAMAYANAN

*Ang Manggahan Floodway ay ginawa
upang maging daluyan ng tubig baha.
Iwasan nating maging daluyan ito ng
sakuna at dalamhati sa ating pamaya-
nan.*

*Ang proyektong paglikas at lipat-
tirahan ay isang hakbang tungo sa mas
ligtas na pamayanan at sa pagkakataong
magkaroon ng mas maunlad na kinabu-
kasan na maipapamana natin sa ating
mga kabataan- mga anak at mga apo.*

(PMRCIP-IV)

*SOCIO-ECONOMIC STUDY FOR
MANGGAHAN FLOODWAY*

RESETTLEMENT ACTION PLAN

PLANO NG PAGLIKAS AT
PAGLIPAT-TIRAHAN

PRAYMER

ANG PROYECTO

Ang Manggahan Floodway, isang artipisyal na daluyang-tubig, ay bahagi ng isang malakihang proyekto ng *flood control* na sinimulang plinano noong 1975 at isinakatuparan mula 1980-1988. Layon nitong tugunan at pigilan ang masidhing pagbaha sa Metro Manila at mga Karatig-bayan ng Rizal.

Ang **Pasig-Marikina River Channel Improvement Project (PMRCIP)** ay bahagi rin ng malakihang plano na ito na sinimulang ipatupad noong 1990. Nahahati ang PMRCIP sa limang yugto at nito lamang Marso 2018 nagtapos ang ikatlong yugto nito. Alinsunod, ang ika-apat na yugto nito o PMRCIP-IV ay nakatakang simulan sa 2019 at ito ay sumasaklaw mula sa *Marikina Bridge* hanggang sa may *Rosario Weir*.

Layon ng PMRCIP-IV na lalo pang isaayos ang Marikina River sa pamamagitan ng pagpapalalim nito (*dredging*), pangangalaga ng mga pampang, at paglalagay ng *flood gates* (ang *Marikina Control Gate Structure* o MCGS at sa may bukana ng Ilog Cainta at Ilog Taytay) at pag-rehabilitate ng *Manggahan Floodway*.

Epekto ng Proyekto

Inaasahan na sa pamamagitan ng PMRCIP ay mas maiiwasan ang mapaminsalang dulot ng pagbaha sa pamayanan ng Metro Manila at karatig-bayan nito. Magiging mabisa itong mekanismo ng *disaster mitigation* na maaaring sumagip ng buhay at kabuhayan sa pangmatagalan.

Subalit inaasahan rin na magdudulot ito ng kagyat sa epekto sa mga naninirahan sa mga apektadong lugar ng proyekto tulad ng sa Manggahan Floodway. Ang mga naninirahan rito'y kinakailangang ilikas at ilipat ng tirahan upang: (1) mailigtas sila sa panganib ng paninirahan sa mga ilog at daluyang-tubig ayon sa kautusang Manda-mus at iba pang batas; (2) maisakatuparan ng maayos, mabilis at ligtas ang pambansang proyektong imprastruktura ng PMRCIP-IV; at, (3) bigyan ng mas ligtas at maayos na pamayanan ang mga tao .

Ang Panukalang RAP

Batay sa ginawang pag-aaral na sinimulan noong ikalwang-semester ng 2016 hanggang sa kasalukuyan, ipinapanukala ang mga sumusunod:

- 1) Paglikas ng mga umuokupa sa floodway (pagitan ng East and West Bank Road);
- 2) Paglipat-tirahan *In-City* (kung may

lupang maaaring bilhin) o *Near-City*;

- 3) Bawat kwalipikadong pamilya ay magkakaroon ng isang yunit (20 sqm) na nagkakahalaga ng Php 450,000 (*payable within 30 years*) sa isang *medium-rise building* (MRB) na itatayo bilang *socialized housing*;
- 4) Ang MRB ay may limang palapag kung saan ang unang palapag ay laan para sa komersyo o gawaing pangkabuhayan; at,
- 5) Magkakaroon ang mga kwalipikadong pamilya ng tulong pangkabuhayan na aabot sa Php15,000.

**Paunang disenyo ng panukalang gusaling lilipatan*

Records of Public Consultation Proceedings in Cainta (1st & 2nd)

A16.1 1ST CAINTA PUBLIC CONSULTATION PROCEEDINGS (19 AUGUST 2018)

A16.1.1 Morning Session of the First Public Consultation

The first session of Public Consultation to disclose the prepared RAP for Cainta was conducted on August 19, 2018 (Sunday). This was attended by not less than 1,000 people from the San Francisco Berm, East Floodway and Apras Anak Pawis I, East Floodway communities (see **Annex 15**).

Similar with the Public consultation at Taytay, the PMRCIP was discussed by DPWH-UPMO-FCMC, which explained its purpose to the attendees. Consultants then tackled the background and rationale of Phase IV of PMRCIP. Consequently, the prepared RAP was elaborated to the attendees (inclusive of its legal basis, the data gathered from the census and socio-economic survey, the criteria for entitlement and compensation, the relocation site, the suggested model of the housing, the quantity and characteristics of the housing units, and the schedule of implementation of the RAP). An overview of the presentation is shown in the primer handed out to the attendees (please find the copy of the primer in **Annex 10**).

An Open Forum immediately followed after the presentation was made. A summary of the discussion during the open forum of the public consultation is shown below. The details of the activity are manifested in **Table A16-1**, while **Plates A14-23 to A14-33** of **Annex 14** presents an overview of the event.

- Ms. Charlene Toledo indicated that the audience recognized the RAP as beneficial to them and that they expected that it would fulfill its objective. She brought up how the project would affect their livelihood, and then asked how the people relocated would be able to revive their businesses upon moving to the resettlement site.

It was clarified by the Consultant that livelihood rehabilitation assistance will be provided to the beneficiaries. Also, the first level of the housing buildings would be reserved for commercial use, hoping that the residents could resume their livelihood activities in the said allotted space.

Ms. Toledo, in a follow-up query, expressed her concern regarding the payment for the housing units, and whether this will be affordable.

The response from the consultants was that the monthly amortization of the housing units is based on the standards for Socialized Housing Project of government. Further, affordability is a major concern in the housing design.

Again, Ms. Toledo queried how the housing units could be passed on to their children as inheritance cognizant that there is a life cycle of only 30 or 50 years for the building.

In response, the consultant narrated that the improvement in the quality of life among the relocated households would be an encouragement for them to better their lives and invest in their future. Surely, fifty years would be enough time for this.

- Ms. Meryl Viloan followed up about the schedule of the relocation and about how the people would be informed regarding the construction of the building and if it is already ready for occupation.

The schedule for the actual relocation depends on the completion of the housing buildings. And the Homeowners Association will be part of the implementing committee that will be involved in the entire phase of RAP implementation.

- Ms. Adela Paredes Alem expressed her concern over whether the relocation would be immediate. She showed identification documents to support her claim to be included among the beneficiaries of the relocation and compensation.

Again, it was clarified that the actual moving out of the households depends on whether there is already a ready housing building for them to occupy in the relocation site.

- Ms. Estelita Lozano brought up a situation wherein one of the houses along the Mangahan Floodway was lost in a fire in 2016. The owners of the house that was destroyed moved away because their previous home is not habitable anymore. Ms. Santos wanted to know how this situation will be regarded in connection to the resettlement.

The National Housing Authority (NHA), in coordination with the Local Government Unit (LGU) will determine the final qualified resettlement beneficiaries and not the DPWH. In addition, there are standard procedure and documentary evidences that will be required by NHA in this process of final qualification.

- Ms. Myra Olita asked how things would fare for the people who were not present during the socio-economic survey and census tagging. She wanted to know whether these people, like her, would also be considered among those to be eligible for compensation and relocation.

This was answered by clarifying that households were tagged to indicate its inclusion and even though the residents were not present at the time, NHA noted this matter in its records.

Likewise, Ms. Malibu Alcantara inquired about the people that NHA had missed on the day of the survey and census tagging. She was also concerned about whether the said people would still be eligible for relocation or compensation.

The people were reminded that NHA would follow up on potential beneficiaries and those that need further supporting documents for their eligibility in the process of final qualification. Regardless of whether the owner is present or not, NHA identifies the owner of the house or structure and includes this in their master list.

- Ms. Wilma Dela Peña asked whether NHA would hold another interview so that the people who were not present during that day could also be included in the survey, and consequently, be also included among the beneficiaries for compensation and relocation.

NHA takes note of the structure and determines the people living in this house or owning this structure. Similarly, NHA would also be responsible regarding whether a household is eligible for compensation and relocation.

- Ms. Roisel Sulieta inquired for how long will the relocated families pay for the unit.

Amortization period is for thirty (30) years.

- Mr. Veronico Oderiano reasoned that he is a security guard and that he was on duty at the time the survey was conducted. Due to this, he said that he was listed as an “absentee owner”. He asked how he could be considered as the owner of the house, and if he could still apply as a beneficiary of the relocation.

It was reiterated that it is the NHA, in coordination with the LGU, which will determine and identify the households that are qualified for entitlement and assistance.

- For the last question, Ms. Cecelia Ramento inquired about how residents would be able to be considered beneficiaries of the entitlement and compensation.

Again, it is the NHA, in coordination with the LGU, which will determine and identify the qualified beneficiaries.

Agenda	<ol style="list-style-type: none"> 1. Presentation of the background of PMRCIP and its phases 2. Report on the PMRCIP Phase IV Components 3. Condensed Presentation of Details of the Resettlement Action Plan 4. Open forum

A16.1.2 Afternoon Session of the First Public Consultation

The afternoon session of Public Consultation in Cainta on August 19, 2018 (Sunday) was attended by nearly 100 people but only 45 people were able to sign the attendance sheet (see **Annex 15**). It covered the sitio of Anak Pawis II of Barangay San Andres.

Similar with the previous activities, DPWH-UPMO-FCMC presented the background and phases of the PMRCIP and explained its purpose to the attendees. Consequently, the Consultants highlighted the discussion on the background and rationale of Phase IV of PMRCIP and then on the prepared RAP (inclusive of its legal basis, the data gathered from the census and socio-economic survey, the criteria for entitlement and compensation, the relocation site, the suggested model of the housing, the quantity and characteristics of the housing units, and the schedule of implementation of the RAP).

Following this, the floor was open for the audience to air their concerns and questions. A copy of the primer handed out to the attendees is shown in **Annex 10**.

A summary of the discourse during the open forum of the public consultation is shown below. The details of the activity are manifested in **Table A16-2**, while **Plates A14-34 to A14-43** of **Annex 14** presents an overview of the event.

- Ms. Mely Sigalat, an officer from LAKAS-TAO (a HOA) literally translated as People’s Power) expressed her opinion that as the people have resided along

Manggahan Floodway for about thirty years, it is highly appropriate for them to have already come up with a people's plan. She thanked the DPWH for presenting the plan however, she asked the audience about their plan and enjoined them to think ahead and plan for themselves and their families. She provided that there are institutions and inter-agencies willing to help them, and stressed the importance of acting upon their plans. As conclusion, she reminded the audience that in accordance to Republic Act 7279 or the Urban Development and Housing Act (UDHA), they are entitled to rights in the process of relocation.

- Ms. Gerlie Baliwag, an officer from BUKLOD-MARALITA (another HOA- literally translated as Union of the Poor) inquired regarding the on-site relocation. She first asked whether the lots for relocation have already been bought, and whether they are already prepared for occupancy. Following this, she asked how they would be relocated (batch by batch), and if they would be relocated by the time the units are ready. She also requested that the process of resettlement be as humane as possible. Her third question was about the target date of relocation.

In response, it was clarified that the lands for the resettlement has not been bought at the present moment since the funds necessary for this will be made available through the 2019 General Appropriations Act (GAA). However, negotiations are already on-going between and among the DPWH, the LGU and the concerned property owners. Procurement of the needed lands will either be through negotiations or expropriations. The LGU of Cainta has committed to exercise its power of eminent domain to expropriate the needed lands for socialized housing.

As regards the manner of relocation, it was clarified that the agreement between the DPWH and the LGU is to observe the stipulation of the law: No eviction without relocation. Therefore, actual relocation will be conducted only when the resettlement housing are available. There will therefore be a phased relocation. Notwithstanding, the whole resettlement process will start by 2019 which will involve social preparation and necessary capacity building for the resettlement beneficiaries. Also, the final process of qualifying the beneficiaries will also be done beginning 2019.

In summarizing the referred requirement posited by the LGU to DPWH, it was enumerated that: the resettlement is "in-city", the relocation will be done only when the houses are available, and there will be adequate preparation before the actual date of moving out.

- Ms. Alma Amora from LAKAS-TAO asked about the extent of boundary for relocation (based on the distance of the people from the impact area). She also wanted clarification on whether those that will be allowed to own relocation units are those that are qualified as beneficiaries or those that can afford to pay their rent. Lastly, she inquired regarding the conditions of people who will not be capable to pay.

The Consultants clarified that the amortization rate is based on the standards set for socialized housing projects of national government housing agencies. The amortization rate is based on capacity to pay or on affordability. He cited as an example the amortization for the NHA MRB in Pasig City which has an amortization rate of Php200/month for the first five years.

Hence, if there are requests from the people to increase the area of the units, these would be weighed depending on the amount that the people can afford. He

further stated that the monthly amortization of PhP 200 is much lower compared to the PhP 1,500 per month fee most people are paying in the floodway.

A16.2 2ND CAINTA PUBLIC CONSULTATION PROCEEDINGS (25 AUGUST 2018)

A16.2.1 Morning Session of the Second Public Consultation

The morning session of the second public consultation for Cainta (25 August 2018, Saturday) was attended by not more than 1,000 people from the Bank Eastern Residence Movement Association Inc. (BERMAI) and East Side Neighborhood Association Inc. (ENAI) from Barangay San Andres and Exodus Floodway (EROCNAI) from Barangay San Juan (see **Annex 15**).

A dialogue between the audience and the consultants, joined by the head of the UPAO was held for better discourse of the project and its impact.

Summarized below is the discussion during the open forum. **Table A16-3** shows a summary of the program while **Plates A14-44 to A14-52** of **Annex 14** shows an overview of the activity.

- Ms. Ma. Cynthia Baido introduced herself as the previous BERMAI President. She enjoined the audience, currently part of the Eastside Neighborhood Association Inc. (ENAI) East Floodway, and those identifying under BERMAI, to work with each other and have one decision. She reiterated the statements of the consultants during the presentation that no one is to be relocated until there is a prepared resettlement unit for them, which was to assure the people that DPWH meant well with its project. Ms. Baido also shared her hope that the implementation be carried out legally and peacefully without resorting to violence, as she recollected the presence of police during previous meetings and coordination regarding the project.

Having said this, she queried on the purpose of the census of the NHA which was included in the discussion of the project and how this census would affect the people and their eligibility for compensation and relocation. She also asked how the housing units would be maintained.

Mr. Solomon Paz explained that NHA evaluates the project affected families (PAFs) using the socio-economic survey (SES) and records structures and businesses within the area of project impact. He said that what was presented was the initial list of eligible families and are yet to be finalized by NHA. He clarified that the families that are not initially identified as eligible are those belonging to absentee owners and families that were already awarded with government housing.

In terms of the management of the units, Mr. Paz expounded on the trainings that will be conducted to prepare the respective Homeowners Association (HOA) to manage the buildings. Hence, the HOAs would be accountable for the supervision of the construction of the building, as well as the maintenance of the buildings and resettlement units.

- Ms. Rosemarie Felipe expressed concern on the urgency of evacuating her family members, starting from her children to her grandchildren. She questioned if there was certainty that those resettled to the relocation site would stay there and not be evicted again.

In response, Mr. Solomon Paz stated that the relocation sites are selected based on requirements that ensure that they will be safe places for the resettled families. The preparation of an Environment Clearance Certificate (ECC), furthered Mr. Paz, is part of this function. Moreover, the formulated Disaster Risk Reduction Management Plan also supported the fact that resettlement sites are safer locations for PAFs. He also said that the PAFs will not be evicted in a single sweep or instantaneously.

- Ms. Evelyn Bernales, BERMAI secretary, conveyed that their group understood that the project would be completed by 2020, and that there was a feasibility study conducted for the project. She stressed that the expected demolition would be naturally a shock to the people residing within the area. She asked if the resettlement site is appropriate and inhabitable, and if the process of implementing the program would be consistent.

In addition to this, Ms. Bernales wanted to know if those that have not been interviewed by NHA would be still qualified for relocation. She also inquired what the criteria were for determining who was qualified.

She also mentioned that the amortization rate is too high and inappropriate based on the payment capacity of the PAFs. She also wished to know why structures were not allowed to be built within the existing land area 15 meters from the river. Additionally, Ms. Bernales brought up that there should be enough funds for the implementation of the project, and that these should be appropriated accordingly to the flood control project.

Mr. Solomon Paz replied that the resettlement action plan (RAP) was not part of the feasibility study conducted in 2014 to 2015. He also indicated that the implementation of Phase IV of the PMRCIP is still underway and that the prepared RAP was prepared considering the results of the SES and census conducted by NHA. Connected to this, he said that NHA would be able to ascertain the audience's questions on qualification, as they are the main body managing this concern.

With this, Mr. Paz stated that DPWH put effort into studying the best way to relocate the PAFs and to make arrangements on how the RAP is to be carried out. The background presented during this public consultation was to inform the people on the necessity of the relocation. No structures will be able to endure within the mentioned 15 meters, especially with the manifesting changes in the climate. In response to Ms. Bernales' statement that DPWH should be receptive to the input of the people, Mr. Paz implied that public consultations are held so that the suggestions and concerns of the people are noted by DPWH.

- Following this, incumbent BERMAI President Antonio Quingan said that there should be a proper announcement and dissemination of information before the relocation. After saying that the relocation units are after all still going to be part of the expenditures of the PAFs, he repeated the query on who was going to evaluate those qualified for relocation and compensation and how people were going to be qualified for this. Mr. Quingan also implored that during the previous study with World Bank, the amount of the housing units required that each family should have a minimum wage of PhP 10,000 to be eligible to participate in the project. He expressed that the DPWH initiative of relocation for the PAFs with corresponding housing units was too good to be true for the people, and he hoped that this would be followed through.

Mr. Solomon Paz corrected previous statements from the audience that the project was funded by the Japanese International Cooperation Agency (JICA) and not the World Bank. He also repeated the answers he gave that answered Ms. Quingan's questions.

At this point, Urban Poor Affairs Office (UPAO) Head Mr. Dennis Cope came forward to respond to this. This address was going to be part of his closing remarks, as he stated that there was scarce time to prepare for the next session of the public consultation in the afternoon.

Mr. Cope pledged that DPWH will be true to implement whatever plan they had presented to the public. He reiterated that the amortization rate would be P200 per month, as per latest arrangement. He also enjoined that the people be more persevering to work harder upon being granted relocation units so that in the future, they can invest for their own lots. Mr. Cope stipulated that due to the increasing population of the residents within the affected area, there will be no more space available and hence it would be about time that relocation would be discussed.

He shared that the local government unit (LGU) of Cainta was working to scope lots that are in-city which were not used by their owners. These lots would be bought by the LGU and designated for relocation. UPAO would also be part of this endeavor as part of its mandate to the PAFs.

Mr. Cope also encouraged the people to coordinate with the mayor and UPAO for further concerns. He also promised participation and consultation with the people prior to implementation, especially that the HOAs were going to be trained and prepared for managing the relocation units.

- As Mr. Dennis Cope was delivering his remarks, EROC-NAI President Mr. Arnyl Fernandez was present to further inquire about how the project was going to affect the people.

Mr. Cope ensured that the community in their relocation units would not be far from accessing schools and whatever basic amenities they needed. Since the relocation site was in-city, as cited by the mayor, the PAFs would not be resettled far away from Cainta.

He mentioned cases wherein those that had evacuated beforehand would return and demand for benefits, when in fact they had already readjusted prior to the planned relocation. Sometimes, the renter would claim the structure as their own especially when they were the ones living there for a long time instead of the owner. NHA would determine the families to be compensated for relocation, and Mr. Cope enjoined the people not to abuse the benefits granted to them.

A16.2.2 Afternoon Session of the Second Public Consultation

The final session of Public Consultation in Cainta was attended by 707 people from Lakas Tao, West Floodway (see **Annex 15**).

Below is a summary of the open forum that transpired after the discussions. **Table A16-4** shows summarized details of the program while **Plates A14-53 to A14-66** of **Annex 14** presents an overview of the events during the activity.

- Ms. Lucy Solinap, LAKAS TAO President, brought up the question on how the people are going to be assigned to their respective housing units (whether they could choose row houses or medium rise buildings) and if they are going to be given a choice to decide if they want to be part of the relocation or to move somewhere else. She also forwarded questions on how the setup is going to be for families with many children, and if they would be guaranteed space enough for them. Lastly, she queried on the payment that the families will render for the relocation units.

Mr. Rory Caguimbal, who discussed the draft RAP, responded to this query. He replied that the input of the people during previous public consultations on the possibility of increasing the floor area of 20 sqm will be considered in the development of the RAP. He added that the improvements in the setup of the

housing units will also correspond to increase of the amortization rate of PhP 450,000.00 that is payable within 30 years (with the payment of PhP 200/month for the first five years).

In addition to this, Mr. Solomon Paz expounded that the mayor had given the consultants the requisite of planning for an 'in-city relocation', hence there are no sites outside Cainta, or Rizal.

Mr. Paz reminded them that the 20 sqm is only the initial floor area. He cited the arrangements in other relocation sites in Tanay, wherein there are housing units that have different floor area designations and with connection to this, have varying amortization rates. Since there is limited land area for row houses, the LGU is working with what models are most effective to put up in the available lot space.

Regarding the query on the amortization rate, Mr. Paz indicated that the price range is based on the standards for social housing projects set by agencies like NHA. According to these agencies, the amortization is also set to increase following any increase in land area. Based on the socio-economic survey (SES) conducted by NHA, rates for rent within the affected area reached an average of PhP 1, 500.00.

Furthermore, Mr. Paz reiterated that households with persons with disability (PWDs) and senior citizens are prioritized to be designated to the second floors of the available buildings, while those whose businesses will be affected can use the first level of the building for commercial uses.

There are on-going talks with the HUDCC and the SHFC regarding the final design. Moreover, DPWH is still awaiting the allocation funds for the project upon the release of the General Appropriations Act (GAA) for 2019.

- Meanwhile, LAKAS TAO Auditor Melinda Sigalat, acknowledged the efforts of DPWH to formulate plans for relocation. She stated that the numerous informal settler families will indeed need proper housing units. She enjoined the audience to support the initiatives for relocation and reminded them that they are entitled to corresponding rights following the Urban Housing and Development Act (UDHA) of 1992.
- Ms. Bernarda Guay recommended that the floor area be increased, as according to her, the residents are willing and are capable to pay for a better unit at a reasonable price (around PhP 1,000.00 to PhP 1,500.00). She also suggested that there be an elevator in the building, as an added amenity for the rest of the families that will be living in the higher levels of the building.

Furthermore, she asked how the case will be for families who own land in the province that choose to move back there.

In response, Mr. Paz said that the implementation of the project is carefully planned and that the participation of the concerned HOA is essential. There will be trainings conducted for the HOAs to manage and monitor the construction of the buildings. For the exception of the second floors, the housing units for different levels will be assigned randomly.

Extensive plans will be formulated within 2019 to 2024, which will be a lot of time for coordination and funding.

- Ms. Lucy Solinap forwarded questions from the audience, including the query on the date of relocation and the transportation assistance.

Mr. Solomon Paz explained the transportation assistance program for those returning to the province or the “Programa ng Balik Probinsya”. He said that for every mode of transportation, there will be a designated person to wait for them at every destination.

The Detailed Engineering Design (DED) will likewise progress within 2019 to 2020. DPWH will also be bidding contractors and will be making further plans.

- Ms. Sofia Tanio inquired whether the people that were not present for the survey of NHA would still be considered for compensation and relocation.

Mr. Paz explained that NHA was entitled to explain this. The data from the SES and census were forwarded to the consultants by NHA. Thus, NHA was more aware of the context of the situation.

- Ms. Sigalat asked regarding the schedule of the relocation. To this, Mr. Solomon replied that the relocation will not be immediate because it will only follow the series of processes such as planning, finalizing of design, allocating of funds, among others.
- Later, Ms. Mila Monis, different from Taytay UPAO Head, claimed that there should be other suggestions and ideas that the implementing body should consider. She asked why there was a need to be relocated when a housing grant could be awarded to the affected families. (According to Ms. Lucy Solinap, Ms. Monis was not part of the LAKAS TAO People's Organization.)

In response, Mr. Solomon explained that the purpose of the RAP aimed to relocate people from the area of impact of the project and at the same time assist them by compensating what structures or livelihood they had that would be affected by the project.

The main goal is to mitigate and control flooding. It would be dangerous to stay in the area of impact.

- Ms. Jasmin Palisoc suggested that instead of stairs, maybe it would be better if the building had inclined planes. This way, they would be easier to maintain than stairs or elevators. Even so, it would entail less effort for people who had to come from the higher parts of the building.
- For the closing remarks, Cainta UPAO Head Dennis Cope assured the people of UPAO and of the mayor's support regarding their concerns. He encouraged the audience to participate in meetings and consultations so that their input can be noted and compared with the municipality's plans.

Mr. Cope also conveyed to the attendees that the contribution of the HOAs and their constituents will be vital to the process of preparation and implementation of

the project. The stakeholders will be the ones who will be responsible for the relocation site and buildings, and therefore they should be active in monitoring and maintaining the property.

Phase IV: Construction of Stage III: Channel Improvement Works for Upper Marikina River

Background of the Project

The Pasig-Marikina River Channel Improvement Project (PhP252) is a major flood control project of the DPWH which was started in 2002 and is funded by JICA. In 2017, its Phase IV: Construction of Stage III: Channel Improvement Works for Upper Marikina River shall be implemented its Phase III is slated to be finished by the end of this year.

Among the major works in Phase IV is the Marikina Control Gate Structure (MCGS) in which the Manggahan Floodway plays a critical role to safely divert the floods towards the Laguna Lake. The flow in the Manggahan Floodway has been reduced with its effective flow area, resulting in the decrease of the flood carrying capacity of 2,400 m³/s to less than 2,000 m³/s due to the heavy siltation and the obstacles constructed in both banks.

Since the proposed MCGS will divert more flood discharges to the Manggahan Floodway, communities residing in both banks of the Floodway will be exposed to more danger and higher risk. The DPWH, in consideration of expediting the implementation of the Project has decided to prepare the Resettlement Action Plan for residents of both banks (berm) of Manggahan Floodway as well as to conduct a hydraulic study on rehabilitation plan of Floodway. This Plan involves a socio-economic study of affected residents.

A huge number of communities have been residing the government-owned Manggahan Floodway since its completion in 1988. LGUs affected consist of Pasig City and the municipalities of Cainta and Taytay. Since the Study for Pasig has been completed, only the two municipalities in Rizal will be studied.

The estimated number of buildings/structures total 10,941 as presented in the following Table:

Estimated Number of Affected Residences and Other Structures

Municipality	Barangay	In Floodway	Outside Floodway	Total
Cainta (Total)		3,159	4,467	7,626
	San Andres	1,268	1,737	3,005
	San Juan	1,891	2,730	4,621
Taytay (Total)		1,133	2,182	3,315
	Santa Ana	787	1,347	2,134
	San Juan	346	835	1,181
TOTAL		4,292	6,649	10,941

The following activities will be conducted in parallel with the River Survey to be carried out at the same time.

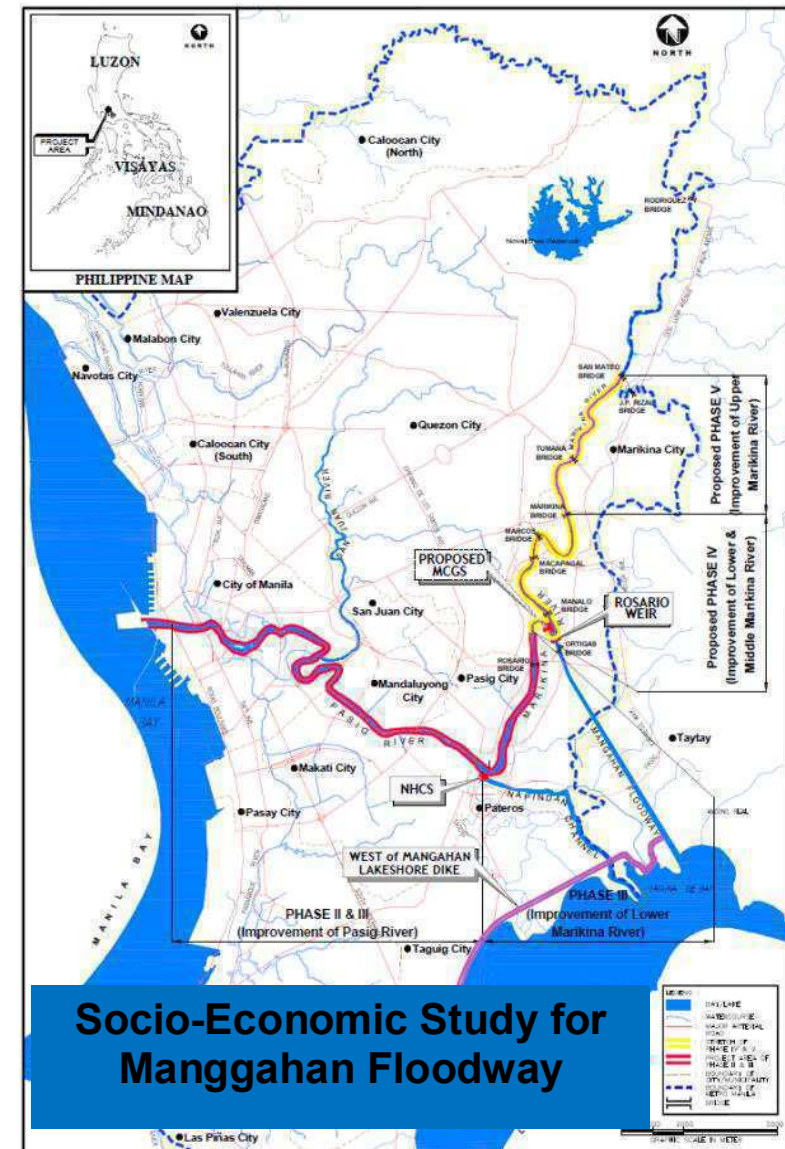

1. Census of Households and House Tagging (C/T): All the potentially affected households will be identified and their house dwellings/structures tagged accordingly. The Census Master List will be produced. This portion has been conducted by NHA during October-December 2016;
2. Socio-Economic Survey (SES): The demographic and socio-economic profile of residents will be gathered. This portion has been conducted by NHA during October-December 2017. The SES will be supplemented with secondary data from available government and private sources. Additional information, as necessary, will be obtained through key informant interviews and focus group discussions with various stakeholders;
3. A survey of income of affected structures with commercial/industrial/institutional;
4. An eligibility criteria and entitlements due to residents based on the results of the SES and the income survey.

Meaningful coordination, information dissemination and consultation with all Project stakeholders will be carried out at appropriate times during the course of the Study.

Community consultations will be held in the four (4) barangays of the two municipalities with the participation of the LGU, representatives of the residents, Peoples Organizations (POs), NGOs and other government and private agencies.

Supplemental Report for RAP Budgetary Requirements

A18.1 RESETTLEMENT COST ESTIMATION FOR TAYTAY

The summary of the indicative cost needed for Taytay (and as presented in **Chapter 9**) is PhP 3,705,392,569.12. **Table A18-1** provides the summary of the breakdown of the underlying activities needed.

As mentioned in the report, about 15 hectares of land shall be purchased for the resettlement. The initial market value per sqm in Don Enrique Heights Subdivision (according to the land owner and the Municipal Assessor of Taytay) is about PhP 2,500. Thereby, the estimated budget for the purchase of lots is ~ PhP 375,000,000.00 (No. 1.0 in **Table A18-1**). Meanwhile, as the design for the MRB will be based on the existing design of the SHFC/HUDCC and that the maximum amount per unit for a socialized housing is PhP 700,000.00, the estimated cost for the resettlement housing of the initially identified qualified ISFs is PhP 2,660,000,000.00 (No. 2.0 in **Table A18-1**).

The budget for the rehabilitation assistance was computed considering the 749 identified businesses within the LGU with individual allocated budget of not more than PhP 15,000.00.

The land development planning for Taytay shall include the consultancy cost for the detailed planning of the area including the topographic survey and geotechnical study.

Table A18-1
Indicative summary of budgetary requirement for Taytay resettlement

No.	Items	Amount (PhP)
1.0	Land purchase assistance to LGUs	375,000,000.00
2.0	Resettlement Housing Development Cost	2,660,000,000.00
3.0	Resettlement Site Development Costs (from Table A18-2)	429,160,569.12
4.0	Demolition/ Hauling Cost (from Table A18-3)	149,646,000.00
5.0	Transfer of Informal Settlers To Resettlement Housing (from Table A18-4)	27,056,000.00
6.0	Potential Rehabilitation Assistance	11,235,000.00
7.0	Preliminary activities and studies	
7.1	Land development planning (including topographic survey and geotechnical study)	16,595,000.00
7.2	Parcellary survey and subdivision plan	2,500,000.00
7.3	Conduct of EIA to acquire ECC	5,000,000.00
7.4	Conduct of tree inventory to acquire tree cutting permit	2,500,000.00
7.5	Social preparation	26,700,000.00
	Total	3,705,392,569.12

Furthermore, estimated budget requirement for the development of the resettlement site is provided in **Table A18-2**. In addition to this, during the implementation of the RAP, the PAPs are encouraged to demolish or haul their own property in the project site. In the case where people will simply allow the proponent to do the demolition and housing on their behalf, the estimated cost is provided in **Table A18-3**.

The transferring of PAFs to the resettlement site will also be shouldered by the DWPH. The indicative cost for this considered the use of a 10T dump truck, hiring of one skilled and four non-skilled workers to transfer two families at each time (**Table A18-4**).

Table A18-2
Indicative cost for the site development of resettlement site in Taytay

No.	Description	Qty.	Unit	Direct Cost	Amount (PhP)
1.1	Site Grading	59,521.42	sq.m.	500.00	29,760,710.00
1.2	Road Network (Including Parking)	59,521.42	sq.m.	500.00	29,760,710.00
1.3	Storm Drainage System	59,521.42	sq.m.	500.00	29,760,710.00
1.4	Sewerage System	59,521.42	sq.m.	300.00	17,856,426.00
1.5	Power Distribution System and Street Lighting	59,521.42	sq.m.	400.00	23,808,568.00
1.6	Water supply/system	59,521.42	sq.m.	400.00	23,808,568.00
1.7	Earthworks and Slope Protection	59,521.42	sq.m.	2,500.00	148,803,550.00
1.9	Perimeter fence	2,000.00	m	6,000.00	12,000,000.00
TOTAL OF DIRECT COSTS (TDC)					315,559,242.00
Indirect Cost - (OCM + Profit - 20% of TDC)					63,111,848.40
VAT (5%)					18,933,554.52
Contingency (10% of TDC)					31,555,924.20
TOTAL PROJECT COSTS					429,160,569.12

Table A18-3
Indicative cost for the demolition and hauling in Taytay

Item No.	Type of Housing Materials	Qty	Unit	Unit Cost	Amount (PhP)
1.0	Salvaged	4	Structure	17,000.00	68,000.00
2.0	Light	1,028	Structure	25,000.00	25,700,000.00
3.0	Strong	734	Structure	45,000.00	33,030,000.00
4.0	Mixed	1,336	Structure	68,000.00	90,848,000.00
Total		3,102			149,646,000.00

Table A18-4
Indicative cost to transfer informal settler families to resettlement housing

No. of Families	Qty	Unit	Unit Cost	Amount (PhP)
3,382	1,691	Trip (2 families each trip)	16,000.00	27,056,000.00

Note: Considerations for the computation include:

- use of a 10T dump truck to carry the families' properties
- hiring of one skilled and four unskilled workers for labor
- two families will be assisted per trip
- on a daily basis computation

A18.2 RESETTLEMENT COST ESTIMATION FOR CAINTA

The summary of the indicative cost needed for Cainta (and as presented in **Chapter 9**) is PhP 6,433,014,370.40. **Table A18-5** provides the summary of the breakdown of the underlying activities needed.

The estimated budget to purchase land in Cainta is PhP 473,423,000.00. This was computed based on the initial computed land requirement in **Table A18-6** and the estimated market price per sqm of PhP 5,000.00 based on the Municipal Assessor.

The budget for the rehabilitation assistance was computed considering the 1,260 identified businesses within the LGU with individual allocated budget of not more than PhP 15,000.00.

The land development planning for Cainta shall include the geotechnical study (with at least three boreholes per MRB), social preparatory activities and EIA activity to acquire ECC assuming each group lot will be required with EIS since the GFA of each group lot exceeds 5 has. EIS is necessary for the acquisition of ECC.

Table A18-5
Indicative summary of budgetary requirement for Cainta resettlement

No.	Items	Amount (PhP)
1.0	Land purchase assistance to LGUs	473,423,000.00
2.0	Resettlement Housing Development Cost	5,275,200,000.00
3.0	Resettlement Site Development Costs (from Table A18-7)	237,253,632.00
4.0	Demolition/ Hauling Cost (from Table A18-8)	286,495,000.00
5.0	Transfer of Informal Settlers To Resettlement Housing (from Table A18-9)	59,864,000.00
6.0	Potential Rehabilitation Assistance	18,900,000.00
7.0	Preliminary activities and studies	
7.1	Geotechnical study and topographic survey	9,878,738.40
7.2	Conduct of EIA to acquire ECC	18,000,000.00
7.3	Social preparation	54,000,000.00
	Total	6,433,014,370.40

Table A18-6
Indicative land requirement for Cainta

Available lot						
Group No.	Building Model	No. of Buildings	Land Requirement per building (sqm)	Total Land to be used (sqm)	Available lot (sqm)	Total No. of Housing Units
1	Model A	7	500.18	3,501.26	3,603.00	280
2	Model A	73	500.18	36,513.14	36,537.00	2,920
3	Model A	14	500.18	7,002.52	7,104.00	560
4	Model A	7	500.18	3,501.26	3,582.00	280
5	Model B	3	324.41	973.23	1,000.00	72
6	Model A	15	500.18	7,502.70	7,846.00	600
	Model B	1	324.41	324.41		24
Total		120	-	58,994.11	59,672.00*	4,736
Additional land requirement						
	Building Model	No. of Buildings	Land Requirement per building (sqm)		Total Land Requirement (sqm)	Total No. of Housing Units
-	Model A	70	500.18		35,012.60	2,800
Total land requirement (indicative)		190	-	-	94,684.60	7,536

*Initial available lot provided by the LGU and available for purchase

Note:

1. Total number of PAFs is 7,536. This computation shows that the 14 lot titles identified by the Cainta LGU will have a deficit of 2,800 units.
2. The missing 2,800 units could mean additional 70 Model A buildings totaling to additional land requirement of 35,012.60 sqm
3. Considering that a 1.5m setback is applied in all sides, the minimum lot should be 324.41 sqm to accommodate at least Model B
4. To maximize the space, the required open spaces was reduced

The estimated budget requirement for the development of the resettlement site in Cainta is provided in **Table A18-7**. Meanwhile, the estimated demolition and housing cost is provided in **Table A18-8**. Lastly, the transferring of PAFs to the resettlement site is provided in **Table A18-9**.

Table A18-7
Indicative cost for the site development of resettlement site in Cainta

Item No.	Description	Qty.	Unit	Direct Cost	Amount
