Total:		P 2,000,000	Total:		P 2,000,000
Justification: Increase in the physical target from 0.272 lane km. to 0.480 lane km. due to the following:					
<ul style="list-style-type: none">• The road runs on a very flat terrain;• Rehabilitation of road is through "crack and seat", hence, design is on-grade and requires very minimal earthworks. As such, project limits extended to cover adjacent sections which also needs rehabilitation; and• The project design considered 0.23 meter-thick of Portland Cement Concrete Pavement (PCCP) including 0.50 meter x 1.00 meter concrete lined canal to alleviate flooding.					

Based on our evaluation, the submitted request for modification of the said project is in order; hence, approval hereof is recommended.
